

The FONKEN PICKER-UPPER

With the new, improved Fonken Picker-Upper you can retrieve golf balls faster . . . more efficiently . . . at lower cost than by any other means. Designed with built-in flexibility to meet every change in ground contour, the Picker-Upper retrieves balls under all conditions — even in heavy grass or weeds. Foolproof comb guides balls into pick-up discs without chafing, bruising or cutting.

THREE SIZES - 3, 9 and 15-foot span

Choose the Singletriever, Standard or Supertriever to fit your needs . . . or add quick-attach Supertriever kit to increase span of present Singletriever or Supertriever units.

April, 1959

June 5-10 . . . At least 50 entries are expected . . . Shady Lawn GC in Oakland, Ia., sold to Dr. N. J. Perley and businessmen, who will improve it and build clubhouse . . . Detroit's newest course is Burning Tree, scheduled to be opened in May.

Warren Cookson and Norman Ceaser, who were going to build separate 9-hole courses in Bangor, Me., are to pool resources and construct 18-hole layout . . . Maricipa County (Ariz.) officials recommend development of public course in Estrella Mountain Park . . . Visibility was reduced to a very short putt recently in Lower Southampton, Pa., but that didn't stop 35 people from appearing before city officials and saying they favored building of a muny Par 3 . . . Palo Alto (Calif.) Hills G & CC organizers have sufficient funds to now go ahead with completion of course . . . It'll be ready in June.

Businessmen planning to build \$300,000 course south of Largo, Fla. . . . New course at Arlington, Tex., to be ready about July 1 . . . Al Coke, who operates several Par 3s, wants to build short course in Ventura, Calif's small boat harbor . . . Wiffy Cox trying to promote a "Maryland State Golf Assn. Room" at some country club . . . It would be a meeting place, trophy cove and headquarters for the association . . . Board of Lakeside CC, Atlanta, Ga., gets preliminary layout plans from Chic Adams.

Pete Lipchick named pro at North East (Pa.) GC . . . He's held assistant posts at Transit Valley, Buffalo, and Concord Hotel . . . Al Roush succeeds Bill Martin al South Hills, West Covina, Calif. . . . Martin deserting pro ranks to go into truck leasing business in Ariz. and N. M. Parke County (Rockeville, Ind.) was having a little financial trouble in swinging. . a public course, but when Architect Bill Diddel volunteered to serve as consultant for free, project got on its feet . . . There was sentiment involved . . . Diddel's wife, is a Rockeville native.

J. A. La Fortune, Tulsa oilman, offers city \$250,000 to convert county farm to park that will include a golf course . . . -Colorado House gives preliminary approval to swap with city of Denver 50 acres of state-owned land in City Park GC for 27-acres of city owned property. . . Denver has been renting the golf property . . . 258,000 rounds were played in 1958 at Denver's four muny courses,

an increase of 44,000 over 1957... City's golf expansion fund has been built to \$70,649.

Santiago GC in Orange, Calif., opened recently . . . Ed Burns is owner and pro, having built the course . . . Million dollar recreation center, planned for Lake Bluff, Ill., would include a driving range . . . Ronald P. Boardman, Chicago securities dealer, is behind the plan . . . Erie, Pa. park director, Charles Downing, wants to build a third muny course.

Dallas, Tex., Tenison public course to get another 9 holes bringing it to 36 holes . . . Robert Moore from Meadow Club, Fairfax, Calif., now pro at new Corral de Tierra (Calif.) CC on Monterey peninsula . . . Monterey Peninsula CC members approve plan to buy course and clubhouse from Del Monte Properties Co. and build new 18-hole course.

Owner Lyle Ostrum to have his new Rolling Green CC at Saginaw, Mich., a private membership club . . . Maple Hill, Saginaw semi-private course owned by Carl Hegenauer to open second 9 this summer . . . First 9 of new Green Acres CC (semi-private) at Saginaw to be opened next year . . . It will replace old Green Acres which was sold last year for residential and shopping sites . . . Some talk about building muny course in Saginaw, one of the few Michigan cities without public golf.

Archie L. Humphrey sells Western View Golf Course, Augusta, Me., to Charles A. Hazzard of Hallowell, Me. . . . Humphrey will stay on as course supt. . . . New name of the 9-hole course is West View GC,

Beg Your Pardon

It was erroneously stated in the February issue of Golfdom (page 3) that the Chardon Lakes course, near Cleveland, O., will be eliminated because of highway re-routing. Chardon Lakes will continue to be operated, having recently been improved.

Inc. . . . Salt Lake Ciy to build two new courses with funds from sale of Forest Dale muny course.

Of 30 courses in the Tokyo area, eight are available for daily-fee play . . . Japanese TV stations often carry 30 minute golf instruction programs . . . Japanese Golf magazine reprinting Jules Platte's book, "Better Golf Through Better Practice." . . . Bobby Jones writing a book . . . It won't be on shotmaking technique but among other features will have Bob's

NEW! WELT-STITCHED PARHOODS FOR 1959!

Already famous on the nation's fairways for durability and styling, Burgett Parhoods for 1959 gain added sales appeal with new welt-stitching. Wide selection of colors . . . ''personalizing'' service with owner's name in gold. Make 1959 a year of bigger pro-shop profits with the Burgett line of gloves and hoods. Order early.

At joint meeting of Southern Calif. and Hi-Lo Desert GSCA groups at Indian Wells CC, Palm Springs, were (top photo, front row) E. Feliz, C. Priday, F. Bove and R. Barker. (Second row) E. Border, H. Stelling, Z. Avila, R. Barker and G. Lanphear of the Southern Calif. organization. In bottom photo are (I to r): J. D. Kilpartick, E. C. Sanders, W. H. Stanley, P. Addessi, E. Curlin, H. Cirata, H. Hardin, G. A. Turner and H. Kilpartick, Hi-Lo members.

thinking on playing tactics.

Bill Beveridge, 61, operator of Blue Mound driving range in Milwaukee and former publicity chmn. of Wisconsin PGA, died in March at his home of a heart attack... He was born in Scotland, came to the U.S. 40 years ago, and had operated a range for 14 years ... He s survived by his wife, Eleanore, two brothers and three sisters ... Bill had frequently contributed articles to GOLFING and GOLF-DOM over the years.

San Jose's Willie Goggin honored at Northern Calif. PGA testimonial tournament and dinner at Green Hills CC in Millbrae . . . Willie rose to occasion to win the tourney with a 72 . . . He was given a cashmere topcoat to keep him warm when he goes to England later this spring to meet the British Senior champ . . . Joe Mozel was the host pro . . . Asked by a young pro how he keeps perpetually young, Goggins' reply was, "Does Macy tell Gimbel?"

Al Renzetti gets new pro shop at Spring Rock CC, Spring Valley, N.Y. . . . Gene Tomaselli, Larry Mascola and Joe Matzko are his assistants . . . During winter, Al gave golf classes at New York U (he also coaches the golf team there), worked with Westchester County recreation board and conducted classes in local high schools . . N.J. Supreme court enjoins Ramsey CC members from using third tee . . . Club is part of a housing development and nearby homeowner brought action on ground that golfers disrupted his home life with their constant chatter.

A state representative in Ohio has asked that caddies be exempt from \$1 hourly minimum wage law . . . If not, he says it would cause so much speedup that it would ruin the game . . . Riverdale CC, Little Rock, Ark., completing \$250,000 remodeling program . . . Course has new drainage system, clubhouse and pro shop have been refurbished . . . Cliff Calderwood is the pro who works in these fine surroundings.

McAllen, Tex., voters approve \$180,000 bond issue for building of muny course . . . San Francisco increases 1959 fees at its four municipal courses after suffering deficit last year . . . \$130,000 Par 3 course being built in San Francisco near Golden Gate Park . . . Harding Park in San Francisco adding 9 holes that will replace present practice course . . . LA's various muny courses earned a profit of \$332,000 last year while Fresno courses put \$37,000 in city coffers.

Quail Valley CC, near Riverside, Calif., planning to start building course late in '59 . . . Anaheim planning municipal course on flood control property . . . Bob Baldock draws preliminary plans for course near Santa Maria, Calif., which is in process of being financed . . . Shadow Mountain Club, Palm Springs building 5,600 yd. 18-hole course to go with its Par 3 . . . Open 18-hole semi-private layout at Mesa Verde, Calif. . . . Bill Bell was designer and John Plumley is pro-mgr.

Ontario, Calif. leasing 200 acres of city property to private bid for muny course development . . . Compton, Calif. planning to use 13-acres for municipal Par 3 . . . Pasadena, with growing golf facilities, is planning to appoint a city golf supervisor . . . Bill Bell working on design for course at Ft. Douglas CC, 18-hole private club south of Salt Lake City . . . Los Alamitos GC building three holes outside of infield . . . When horses are rumning, play will be curtailed . . . Palm Springs (Calif.) Ranch course, designed by Larry Hughes, has first 9 in play and second 9 is scheduled to be opened this month.

Leading the way to fast sales in '59 are Burgett's new button-back gloves in all leather or Halanca and leather. Beautiful colors...famous Burgett fit and craftsmanship. *Plus* — every Burgett money-making glove of last season's line is available again for continued high sales. Order now!

dressed galaxy of golfers. The golf fashion features, for which Mrs. Wingate is constantly on the lookout, are presented in the women's window.

Prices are strictly competitive with women's specialty shops in major cities and the fashions are up to the hour. Price Tags Shown

The general golf window generally has a price tag shown on featured items of merchandise. The tags get the men coming in and asking for more information or moves them to buy. The women don't need tags unless there's some extraordinary bargain. Women aren't at all backward about asking the price on anything that interests them. If the price is more than they want to pay, there's no deal. But men often are shy about asking about prices.

The general window always has some items such as gloves that a fellow forgets he needs until he happens to see it in the window and knows it is handy to buy in the shop.

Speeches and Quotes from GCSA Turf Show

(Continued from page 46)

grams are based on a knowledge of the essential plant nutrients, soil and plant tissue tests to assist in determining food requirements, and a basic understanding, not only of the chemical constituents of the fertilizing materials we apply, but of the soil processes that condition them for plant use.

We water, not on the basis of the capacity of the irrigation system, but according to our special knowledge of the ability of our soil to absorb, transport and store the water we apply. And we are fast learning how to modify existing soil and even the water, to secure optimum utilization.

Knowledge Increased

We recognize many of the causes of turf deterioration which were obscure only a few short years ago. In the large majority of cases we have the basic knowledge of how to cope with them, be they disease, insects, localized dry spots, soil compaction, chlorosis, or crabgrass infestations. Our stock of specialized information must include a knowledge of the improved varieties of each of the turfgrass species and their individual strong and weak points. On top of all this, we must know how and when to use the mounting list of specialized equipment designed for mechanized maintenance.

Recognizes Importance

This type of specialized and technological knowledge is the professional stock-intrade of the competent course supt. He recognizes its basic importance to his ability to do the job and to his professional standing.

It is generally recognized that there is a serious shortage of men who are qualified by experience and training to assume the responsibility of managing a business, the value of which may run well into seven figures, that may represent an investment of well over a million dollars. I think the supt. recognizes this and is disturbed by it. He fully appreciates that when a course is opened someone is going to get the job of handling it. If a competent supt. cannot be found, someone is still going to get the job. All too often the results are about the same as what would be expected if we tried to repair a watch with a set of plumber's tools. The good supt. takes pride in his profession and realizes that every failure to fully meet its challenge may seriously affect it. He believes that adequate training at the professional level before full responsibility for course management is assumed can do much to reduce the number of failures.

Pinch Is Widespread

Before leaving this phase of the subject, I should like to point out that course management is not the only area in the turfgrass field that is feeling the pinch of the scarcity of competent personnel. The thousands of acres of highway turf in every state require trained supervision. Cemeteries, consolidated schools, public housing projects, parks and even industrial plants are developing such a heavy investment in turf that they are beginning to recognize the necessity of professional service both in establishment and management of their areas. Industry, always eager to find new markets for its products, has been quick to recognize the potentialities of the turfgrass field. Fertilizer companies, manufacturers of herbicides, fungicides, and insecticides, seed producers and distributors, the turf equipment industry, all are recognizing the specialized nature of turf production and are bidding for the services of well trained personnel.

A group of the 85 persons who attended the Tri-State turf conference at Holston Hills CC, Knoxville, Tenn., watch as Hugh Parker and Art Thorsberg demonstrate different types of machinery.

Because of this competition, the golf course gets only a fraction of the limited number of individuals who choose turf management as their profession. The situation is further aggravated by the fact that general training in the turfgrass field does not, in itself, fit the individual for the specialized job of course management. It takes more than a backyard knowledge of how to grow grass to become a successful supt.

as gentle as a soft rain... yet, covers more ground with more water, faster!

SPRINKLERS

Exclusive single, rotating line of water allows all water to soak in before the line passes over again! Throws farther by putting all the pressure behind a single line.

GOLF COURSE CONSTRUCTION COMPANY R. ALBERT ANDERSON

GOLF COURSE ARCHITECTS BUILDERS

25 Years' Experience

Our organization is in a position to finance a portion of new golf course design and construction — in one package.

The responsive cooperation of golf course committees, superintendents and professionals of the numerous courses we have constructed speaks for the advantages of our project planning and procedure.

As experienced specialists we keep informed on golf course construction and turf requirements in all parts of the country.

• Modern construction • Maintenance ease and economy • Tees – up to 240 ft. long; dual tees; L-shaped tees • Greensgently rolling with 7500 sq. ft. of putting surface; elevated between 4 ft. and 9 ft.; properly drained.

R. Albert Anderson

6300 Gulf of Mexico Drive, Longboat Key, Fla. 3814 Washington Ave., Racine, Wisc. Marvin Ferguson, USGA research director: We cannot adequately measure the value of turf research. We can only assess its value in terms of the seriousness of the problems that have to be solved. How much would it be worth to control poa annua? Nobody can say accurately, but everybody in the turf field knows that we want to get rid of it.

Control Disease Through Good Management By MALCOLM C. SHURTLEFF Iowa State University

Nutrition is not only important to grass plants but it is also important to disease organisms because, as you know, the organisms can't manufacture their own food – they have to get food from the organic matter in the soil. This may consist of old dead roots or fat or even healthy plants.

Many of these organisms can go either way — they can feed on dead organic matter or, if conditions in the green or fairway favor it, they can attack healthy plants. When that happens you get a disease situation.

The work at Washington State by Dr. Gould is showing the importance of nutrition in controlling some turf diseases. In fact, he believes you can control some of them by reducing your nutrition.

For many years it has been known that a high state of fertility will increase brownpatch, etc. Fungi in the ground feed on the nutrients and, of course, when you apply fertilizer to the soil, you are also feeding microorganisms, some of which are your enemies and some your friends.

Top Layer Menace

Further, there are about a ton of microorganisms in the top layer of soil. These organisms attack healthy plants. In a small spot of soil in the average green there may be hundreds of thousands of fungi, some of which, of course, are pathogens.

Watering is another important practice and I suppose that more diseases are either conquered or lost through poor watering practices than anything else.

Cutting is also important. This is signified by the fact that if you cut your grass too short it will be subject to fast deterioration or death or attack by various diseases.

ation or death or attack by various diseases. Keeping grass vigorous, keeping it growing at a steady rate throughout the growing season, treating grass like you would your own son is the best way to control disease.
