OLD TIMERS

EMMAUS,
PENNSYLVANIA

PAUL WEISS, Lehigh Country Club, Emmaus, Penna.:

"I use AQUA-GRO on all my greens as a standard part of my maintenance program. I make an early application full strength and then a smaller dosage each week in my spray program. I've been here at Lehigh CC for 32 years, and although no product is a cure all, AQUA-GRO surely has its place in good turf maintenance. We have found it a very useful tool. We can grow good grass without AQUA-GRO, but it's easier with it."

Control small-job costs!

Costs increase every year on those smaller jobs now using expensive hand methods and walk-behind equipment. A versatile Cub® Lo-Boy® can cut those job costs appreciably.

Here's why: Initial cost is low, saving you hundreds of dollars compared with larger rigs. Operating cost is negligible—you measure fuel consumption in quarts instead of gallons, per hour.

This full-fledged, man-sized tractor and a wide line of available equipment can groom clubhouse grounds . . . mow roughs . . . perform scores of jobs more economically, let you keep larger tractors more productively busy on fairways.

Mower: Rose

For fairway mowing, here's the new, low-cost International 240 Utility with 38.5 engine hp to deliver top economy in 5 or 7-gang mowing. Handles an 11 cu ft bucket with front-end loader.

benefits!"*

... that's the experience
of James J. Grady, Supt.,
Roselle Golf Club, Roselle, N. J.

Greens, tees and fairways at the Roselle Golf Club have been fed with Agrico fertilizers for more than ten years. Today the Roselle turf is outstanding in the excellent color of top-growth, vigorous root development, and freedom from weeds. Superintendent Grady attributes the fine condition of the Roselle course to a program of three fertilizations a year with Agrico and Agrinite.

Says Mr. Grady: "In this business of turf maintenance, it is very important to use the finest quality fertilizers along with sound management procedures. AGRICO COUNTRY CLUB FERTILIZER and AGRINITE have provided outstanding results year after year."

HEAVYWEIGHT PULLING POWER Yet Lighter on Turf than 185 lb. Golfer!

NEW! Select-O-Speed Transmission

Shift on-the-go, under load, with no interruption of power. Ten speeds forward, two reverse. Best for hilly courses. Down shift on steep grades for extra power without damaging turf. Tractor does not stop, spin wheels, scalp turf starting up again. Greatest tractor advance since hydraulics...and only Ford has it!

Ford Workmaster Tractor has power aplenty to take a 5-gang mower wherever needed — even up a 15-degree slope. Yet its big "button tread" tires and balanced weight distribution solve that old bugaboo of all grounds keepers — turf compaction.

No part of this Ford tractor exerts as much weight on a given spot of turf as the heel of a husky golfer (or for that matter, a lean and wiry caddy with a 14-club bag). Mowing is only one of the many jobs Ford handles for grounds maintenance people everywhere. With other attachments it loads, dozes, digs, sweeps, handles dozens of jobs around the clock and around the calendar.

Jack Campbell Produces Good Turf and Fine Curling Rinks for Seignior Club

This fine year-around club is situated on the Ottawa River between Montreal and Ottawa. Golf is the popular sport in summer, and curling in winter.

Seignior has one of the finest golf courses in Canada. Greens, tees, and fairways are ranked among the best in North America, thanks to the skill of its Greens' Superintendent, Jack Campbell. He built this Stanley Thompson masterpiece and has been at the club ever since. He keeps a well-turfed and well-groomed course. MILORGANITE is, and always has been, his favorite fertilizer. During the winter, Mr. Campbell produces artificial ice for curling. Seignior Club has an indoor rink with four sheets, considered by many curlers as the best ice in Canada.

OR
CALOCURE®**

**START
YOUR
PREVENTIVE
PROGRAM
NOW**

**STOP
BROWN
PATCH
BEFORE

ORDER CALO-CLOR OR CALOCURE NOW!

Action now will insure disease-free greens this summer. Follow a regular preventive spraying schedule using the most effective fungicide available: CALO-CLOR or CALOCURE. They're mercurial fungicides specifically formulated to prevent and control brown patch. You don't need to mix them with other fungicides to get results! Choose either one:

EXTRA-POTENT CALO-CLOR

If brown patch is a severe problem in your area, use CALO-CLOR. It knocks out the most vigorous fungi quickly and gives long-lasting protection. There's no need to worry between applications! CALO-CLOR has been a proven "brown patch killer" for over thirty years!

EXTRA-SAFE CALOCURE

CALOCURE is well suited for regions where the climate is so hot and humid that you require an extra measure of safety. CALOCURE helps your greens many ways... stops disease quickly—gives lasting protection—maintains or improves turf color—and is extra safe.

ECONOMY WHERE IT COUNTS

CALO-CLOR and CALOCURE are economical! You use smaller doses... just 1 to 2 oz. per 1,000 sq. ft. of turf, every 7 to 14 days. And most important, they save your greens! That's the economy that counts!

SPRAY APRONS, TOO...

It makes good sense to keep disease **away** from your greens.
