IT'S EASY . . . IT'S ECONOMICAL  
. . . IT'S EFFECTIVE

Algae, water weeds, and other water growths create odors, breed insects. Now, you can eliminate this problem with Parko Algaecide, the aquatic weed killer that has been proven in use by camps, hotels, and other institutions. Simply spray Parko Algaecide on the water surface as instructed—that's all there is to it. One treatment has a residual effect for up to 10 years.

## Why ureaform is nitrogen at its very best!

**IT'S SIMPLY THIS:** turf and ornamentals get a square meal of nitrogen *every day*. No feast or famine feeding with Ureaform. Instead s-l-o-w, steady, day-by-day "controlled release" of nitrogen nourishment the *entire* growing season. *From just one application!*

No wonder more and more nurseries, parks and golf clubs prefer "Borden's 38" Ureaform nitrogen for straight application or in their mixed fertilizers.

That's not all. "Borden's 38" is high analysis—a full 38% nitrogen. It's 100% safe, too—can be applied any time of year, even in hottest weather, without burning. It needs no watering in. It won't leach away. Or wash away. It's clean, pure-white—and odorless. It encourages balanced plant growth. Economical? It fits in any budget be-

cause of the time and labor it saves! Ureaform is nitrogen at its very best. No other form can match it.

Ask for "Borden's 38" by the bag for direct application—or make sure Ureaform is the nitrogen source in any brand mixed fertilizer you select. Either way, it's the most modern nitrogen you can use. It opens up a whole new and better approach to the care and feeding of turf and ornamentals. Further information on the *proved* economy of Ureaform is yours for the asking. Write The Borden Chemical Company, 350 Madison Ave., New York 17, New York.
