"Switching to U.S. RANGE BALLS saved real money for me"

says George McAllister, Studio City Golf Center, Studio City, Calif.

"In addition to the range you see here, I own a three-par nine-hole course. Providing balls for this set-up used to cost me plenty. Then, about a year ago, I switched to U. S. Range Balls. They have already saved me real money. Besides being the longest-lasting range balls I've ever known, U. S. Range Balls are almost impossible to cut. When they get smeared or smudged, they wash right back to original color. My advice to all range operators who want to cut their costs the way I did is to use U. S. Range Balls."
