

A perfectly matched set

CERTES

CERTES for speedy hand mowing. A hundred cuts to the yard!

Ransomes

AUTO-CERTES

AUTO-CERTES for silk-smooth mowing of greens.

Yes, Ransomes mow the world — and Ransomes mow many of the world's Championship Courses too! The Royal and Ancient, St. Andrews; Le Touquet; The Royal Golf Club de Belgique; Lima, Peru; Sao Paulo, Brazil; The Royal Adelaide, Australia . . . all use Ransomes mowers. The reason is not far to seek. Ransomes mowers are of world-championship style and world-championship quality.

GANG MOWERS

GANG MOWERS for quick, efficient mowing of fairways.

Solve your sod problems with a RYAN Jr. Sod Cutter . . . and the RYAN Rollaire

Keep your course — greens, tees, and fairways — in tournament condition all season with these rugged, self-propelled, precision-built machines! First, cut healthy sod from your nursery. Next, strip out worn or dead sod. Your Ryan Jr. Sod Cutter adjusts to proper depth, does both jobs at the rate of 100 sq. ft. per minute! Third, roll stripped soil (if necessary) with your Ryan Rollaire . . . lay new sod . . . roll again. Designed for golf course use, the Rollaire gives the proper weight of 28 lbs. per lineal inch, water filled.

Using both units, you replace sod with practically no interruption to players. Optional sod cutter blades let you cultivate, edge, or trench. Tennis courts, blacktop, general turf rolling will keep your Rollaire busy.

90% of all machine cut sod is cut by a Ryan Sod Cutter! Write for full information:

K&M ASBESTOS-CEMENT UNDERGROUND IRRIGATION PIPE

So smoothly and dependably does quality K&M Asbestos-Cement Underground Irrigation Pipe supply water to thirsty fairways you hardly know it's there.

There's never a costly maintenance headache. Flow is uninterrupted. Your pumping costs remain low. This practically indestructible pipe won't tuberculate, resists corrosion and is immune to electrolysis. The exclusive, patented K&M FLUID-TITE Coupling forms a leak-tight and root-tight joint that wastes not a drop of water under all operating conditions.

Another plus is speed of installation, with minimum interruption to your playing schedule. This modern pipe assembles in two easy steps. A 5° deflection, permitted at each joint, enables the pipe to follow the contours of your grounds.

Choose K&M Asbestos-Cement Underground Irrigation Pipe for your fairways and heaviest water pressures. For sprinkler systems around greens, we recommend durable, economical K&M Plastic Underground Irrigation Pipe.

FROM **RAIN BIRD** ...a new concept in greens watering

TURF BIRD Mod. 707S is designed for the pin-point coverage required for greens. Rust-proof aluminum construction makes it a "Lightweight," but it delivers "Heavyweight" performance. . . . Uniform coverage up to 150 ft. in diameter.

A NEW lower angle of trajectory (21°) lowers the stream out of heavy wind currents, assuring uniform coverage.

The adjustable "Hi-Lo" nozzle gives additional coverage at outer edge of green when shut off . . . or can increase coverage at center of green when needed.

The **TURF BIRD Mod. 8085** provides even coverage for large fairway areas up to 232 ft. in diameter.

Check the features of the versatile Turf Bird sprinklers with your local Nelson-Rain Bird dealer . . . or write direct to:

COMPARE maintenance costs!

and you'll buy ROSEMAN GANG MOWERS - - -
Every Time

Why Roseman

High mowing costs, wasted man hours and excessive repair bills are not found in gang mowers of Roseman design and quality.

Save on Repairs

Exclusive non-breakable malleable side frames and bed knife shoes. Tough chrome-nickel alloy steel heavy duty reels with riveted blades—not welded—to avoid hard spots and breakage. Timken adjustable bearings. Vanadium steel bed knives. All assure faithful service for many years with almost non-existent repair bills.

Save on Labor

Exclusive ability of Roseman hollow-roller-drive gang mowers to overhang traps and shrubbery beds and cut close to fences and structures eliminates the need for much hand trimming. Hundreds of man hours can be saved or devoted to other tasks.

Save on Time

Roseman mowers are rear drive mowers. They mow faster, more uniformly without kicking up the rear. Faster mowing with considerable savings in time and man hours are the result. To say nothing of smoother cut fairways.

Save on Equipment

Roseman mowers, with combination rough and fairway hitch can be used to mow areas quickly and at less cost. No need for the smaller club to buy an additional gang of rough mowers. Just flip the mowers into high cutting position. Also useful where grass on rain flooded fairways "gets away."

Compare 'em all

You are invited to compare the Roseman mower with any other mower. Be sure and compare Roseman quality, design features, low upkeep costs, and performance. We believe that you, too, will join the swing to Roseman mowers.

Yards of Fairways Are Buckner Irrigated

Buckner rotary pop-up sprinklers with automatic controls are used to irrigate the Brentwood Country Club, Los Angeles, California.

Buckner sprinklers, valves and couplers were installed on the world's first hose-less golf course irrigation system at Pebble Beach, California in 1912.

Today Buckner sprinkler systems are providing better turf and better play on championship golf courses all over the world. Install genuine Buckner sprinklers, key to successful irrigation and better golfing for your members.

Distributors in all principal cities. Look in the yellow pages under "Sprinklers."

"Last year we put our first Jacobsen Greensmower with the new 321 Engine into service. Between May and October we operated in daily desert temperatures of 110 to some 120 degrees. The new Jacobsen 321 Engine came through with flying colors. No shutdowns, not even a sparkplug changed in over 400 hours of service. Availability and reliability of this mower was 100% at all times!"

Harvey Hardin, Superintendent, Indian Wells Country Club, Indian Wells, California

NEW Jacobsen 321 Greensmower Grooms Indian Wells greens to tournament standards

The story of the new Jacobsen 321 Greensmower with its gas-to-oil ratio of 32 to 1, improved clutching and overall fine performance, as reported from Indian Wells, is being repeated by superintendents at course after course. That's not all! Mr. Hardin goes on to say:

"Indian Wells Country Club has been exclusively equipped with Jacobsen-Worthington Mowers and Tractors for the past several years. This equipment participates daily, the year 'round, in our efforts to meet the high standards of fine turf maintenance here at Indian Wells Country Club."

Jacobsen-Worthington helps you cut the cost of cutting grass. Let your Jacobsen dealer demonstrate.
