Wilson Sporting Goods Co's Sandy Andy sand wedge is said to feature a new concept in design. A new, thinner blade slices through and under the top layer of sand to pop the ball up and out of trouble. More weight in the sole is said to keep the blade from turning as it rides through the sand. The club is highly endorsed by Gene Sarazen. It is available at all pro shops.

Crawford Beefs Up Kiltie-Kar to Withstand Hard Usage

The Kiltie-Kar, made by Crawford Mfg. Co., Meadville, Pa., has been beefed up to withstand the rigors of hard usage. Horsepower has been

stepped up and heavy duty bearings and rear axle have been built in to strengthen the car. The power unit has been made replaceable for easy maintenance. This unit, incidentally, "floats" to reduce vibration to a minimum. This is done through the use of rubber bonded bushings and spring loaded-torsion bar motor mount. The Kiltie-Kar is a two passenger unit. The Crawford firm is interested in setting up sales agencies and distributorships. Inquiries should be sent to Meadville.
