More than 1,000,000 gallons
YET "CARE IS EXTREMELY SIMPLE"

NATIONAL CASH REGISTER COUNTRY CLUB

Clubhouse, National Cash Register Country Club, Dayton, Ohio. Built for NCR employees, the Club covers 470 acres and includes two courses. The North Course is designed for "average" golfers, the South Course for players of championship calibre.

a day...

Sprinklers go to work on the 10th hole of NCR's South Course. Pipe sizes for the Club's watering system range from three inches to eight inches.

Seven-and-a-half miles of cast iron pipe irrigate NCR's two 18-hole golf courses. 72,000 gallons can flow through the system in an hour; and more than a million gallons have been handled in a 24-hour period.

Installed in 1953, the watering system, according to Greens Superintendent Jack Hart, "... has served us without disappointment. Its care is extremely simple despite the heavy volume of water handled each season and the terrain of our championship South Course."

Cast iron pipe is tested at 500 psi at the foundry... easily handles the high pressure necessary to deliver the required volume of water. And because its joints are as strong as the pipe itself, you get down-the-line dependability.

Forget about the stress of external loads, too. And earth movement. And temperature extremes. Cast iron shrugs off shock and strain—delivers the water you need for optimum playing conditions, for *at least* a century.

Get the worry-free pipe. Get cast iron.

CUSHMAN.
Gasoline Golfsters.
 chosen for The 49'ers
CLUB in competitive
testing

Bill Ogden shown here with one of the twenty new Gasoline Golfsters.

This new Tucson, Arizona, course not only plays long (more than 7,000 yards), but has many long hauls between green and the next tee.

"Therefore, in choosing the 20 cars for our club fleet, we looked for range, power and dependability," said Club Pro Bill Ogden and Vice President Paul Van Wagner. "On the basis of competitive tests, we felt that the course, with its rolling hills, could best be traversed with Cushman Electric Golfsters. With Terra Tires, the Golfster is easy on the new turf and easily negotiates the sandy soil in a few problem areas. We're most happy with the Golfsters' enthusiastic acceptance by our members, and with their quiet, inexpensive operation."

**UNMATCHED QUIET
 UNLIMITED RANGE**

The sturdy heart of the Cushman Gasoline Golfster is a new OMC two-cylinder, die-cast aluminum, 18 HP engine with unlimited range and power to spare. It always loafs—never labors—which is part of the secret of the Golfster's quiet operation. The loafing engine also means minimum maintenance. Many other outstanding features.
