

A golf course irrigation system designer from Ohio and New York reports:

“Permanence and freedom from corrosion make Transite ideal for golf course irrigation systems.”

Walter R. Hennessey, The Skinner Irrigation Company, Troy, Ohio

“In designing hundreds of irrigation systems for well-known golf courses in both the East and Midwest, we have found Transite to be the ideal pipe. Its quick, easy assembly and adaptability to course terrain provide important installation savings.

“Transite’s exceptionally high water-carrying capacity, corrosion resistance and permanence, reduce the long-range operating costs of a system. Maintenance is virtually eliminated for there are no contributing elements in this asbestos-cement pipe to clog sprinkler heads. Transite is indeed a pipe that brings many economies to both our company and our customers.”

For details on Transite® Irrigation Pipe, write to Johns-Manville, Box 362, GO-2, N. Y. 16, N. Y. In Canada: Port Credit, Ont. Cable: Johnmanvil.

### **Ford Claims New Cutting Concept for Flail Mower**

A "flail mower" that will be made available this spring by Ford Motor Co.'s Tractor & Im-

plement Div. represents a new concept in mowers, according to the manufacturer. In contrast to the scissors action of the sickle bar, to the reel-type whose blades cut against a stationary bar, and to the rotary whose blades move in a horizontal plane, the flail mower has free swinging blades which hang from a rotor parallel to the ground. It is said that this construction virtually eliminates the hazard of objects being thrown beyond the protective shield of the unit.

The flail blades pulverize clippings virtually before they reach the ground. A rear roller accurately controls cut height from a fraction of an inch to four ins. by changing the lineup of the roller and the mower's housing, and by adjusting the top link of the tractor's three-point hitch.

### **New Pipe Tagging System**

Consolidated Pipe Co. of America, Akron 10, O., has adopted a new tagging system that is said to be unique in the plastic pipe industry. All of the company's pipe is being tagged with color-coded cards bearing information on the basic materials from which the pipe has been extruded and describing standards it has been manufactured to meet. Installation instructions appear on the reverse side of the tags.

### **Promotes Tournament Attendance**

Brunswick Sports div. of Brunswick Corp., through sponsorship of The MacGregor Co., has launched a nationwide billboard program to promote attendance at nearly every major 1962 tournament. Colorful 24-sheet posters will be posted well in advance of the events in tournament cities. It is expected that more than 500 billboards will be used to publicize the tourneys.

# Specialized Cole Trees

*for Modern Golf Course Landscaping*

The right type, size, shape and ultimate height you want for all your special tree requirements.

All the best and most popular of the old standards, now improved by careful selection and culture.

Exclusive, patented modern varieties developed by Cole to fit today's new landscaping styles.

If you have the problem of achieving the desired landscape effects within the limitations of space, budget, soil and climate, Cole offers you a wide choice of highest-quality trees and nursery stock to meet these conditions.

For many years Cole Nursery Company has conducted an intensive program of improvement of the best old varieties and development of new varieties for modern landscaping purposes.

Depend on it—you'll get only the highest quality trees and nursery stock, in healthy condition, with the best root systems grown. We can supply your needs in wide variety and ample quantity from our modern 1200-acre nurseries. We accept wholesale orders only. Write for our latest catalog or send us your list for a special quotation.

## THE COLE NURSERY CO.

Phone Elmwood 2-3121

HEADQUARTERS: 2000 W. Jackson Street, Painesville, Ohio • CIRCLEVILLE DIVISION: Old Route 23, Circleville, Ohio

**COLE'S IMPERIAL** (Plant Pat. 1605) A graceful, spreading Honeylocust that transplants easily, grows straight *without staking*, requires minimum care and causes no ground litter. Ultimate height 30 to 35 feet.

**DENSE, COMPACT ROOT SYSTEMS** like this result from root pruning and wide row spacing which promote maximum root and top growth. Yardstick shows size of root on 1 1/2" caliper Green Ash. Mechanical digging and careful packing assure you delivery in good condition.

## Western Tool's Par-Pony Has Numerous Uses

Western Tool & Stamping Co., Des Moines, Ia., is introducing the Par-Pony for golf and industrial use. It is a 3-wheel, 2-seat, gas pow-

ered vehicle that weighs about 200 lbs. The 4 hp engine has an extra low-tone, high volume muffler and has either an easy-spin recoil or electric starter. Accelerator and brake are located on a single pedal and the low profile pneumatic tires have extra wide rims for easy riding. The Par-Pony can be loaded into a station wagon by one person although there is a

hitch on the car for towing. Accessories include sun top, lawn sweeper, utility cart and three gang mowers. Full details can be obtained from Western Tool & Stamping Co.

## Sarazen Joins Etonic Staff

Gene Sarazen, whose career spans 40 years in professional golf, recently has been added to the Etonic golf shoe advisory staff. During most of his career, Gene had his golf shoes custom-made in New York or London, but the story goes that a few months ago he tried on a pair of Etonics and was so happy with them that he immediately threw away the addresses of his bootmakers. It is hardly necessary to point out what he will be wearing from now on.

## Pre-Engineered for Utility

A pre-engineered, small metal building, manufactured by the Parkesburg Building Div., Parkersburg, W. Va., is said to be ideal as a utility building for golf courses. Skid mounted for portability, it can be used as a field office, gate house or storage shed. Contrasting colors on roof, door and wall panels enhances its beauty. A rooftop ventilator is optional.

## Leather Head Cover

Jay-Thomas, Inc., 2360 N. 30th St., Milwaukee, Wis., is marketing a new clubhead cover made of genuine leather. A knit shank gives added protection to part of the shaft and serves to hold the cover on the head more securely. The covers are available in 14 different two-tone

colors and go as high as the 7-wood. A pom-pom on the leather portion of the head is water-resistant. Prices and descriptive literature can be obtained by writing to Jay-Thomas.

## Club Management Pamphlet Published by Chicago Firm

"The Key to Profitable Golf Club Operation," a 12-page pamphlet, can be obtained by writing to Golf Club Management Co., 75 E. Wacker dr., Chicago, Ill. It tells how GCMC is set up to supervise club operations, provide temporary management if needed, select supervisory personnel and develop new clubs.

## "Old Stoney" Marbleizes the Putting Stroke

Marblehead Golf Corp., PO Box 1562, Sarasota, Fla., is marketing a putter with a head crafted from genuine marble and it's said to be making a hit in Florida. Called the "Old Stoney", the putter was devised by Fred Taylor who discovered that the high resiliency of dense grain marble gives a strong, true touch to a golf ball with a minimum of stroke. Leo Grady, pro at De Soto Lakes, near Sarasota, has helped with the design of the putter.

## K & M Opens Albany Office

A new dist. office in Albany that will service upper N. Y. and New England, has been opened by Keasbey & Mattison Co., Ambler, Pa. It is located in the Manger-DeWitt Clinton Hotel, State and Eagle sts., and is under the direction of H. Leon Krout, formerly asst. mgr. of the Ambler pipe district. He has been in sales work for K & M since 1948.

neapolis, features easily removable 11½ in. side-boards that give the vehicle's carry-box a capacity of 15.4 cu ft. The Workmaster is powered by a 10 hp engine and has a 5-gal. fuel

tank with electric indicator and outside fill. Other engine features include an extra heavy crankshaft, 3-qt. oil capacity, stellite exhaust valves and seats, twin power magneto ignition, etc. The tiller bar 's said to be vibration free. Top speed of the Workmaster is between 7 and 10 mph. Tires are of the low-pressure type and the front end spring suspension makes for easy riding.

**MacGregor's  
Glove Rack**

MacGregor's new rack for showing its golf glove package is 15 ins. high and 12 ins. wide and has four "arms" for display purposes. A cellophane window in the individual packages makes it easy for the player to make a choice of colors.

**Columbia Moves to Charlotte**

Columbia Car Corp., has moved its plant and offices from Grovetown, Ga., to Charlotte, N. C. Its new mailing address is PO Box 336 and its distribution address is 220 Dalton ave. The company manufactures the Pargo electric and gas-powered golf cars and industrial personnel carriers.

Just recently Columbia appointed R. J. Poffenbarger sales mgr. He has recently travelled the eastern part of the U. S. for the firm establishing distributor sales outlets.
