

se on our greens, gicides have never failed me."

—Ben Kronn, Superintendent,
Twin Orchard Country Club, Long Grove, Illinois

That statement is typical of the enthusiastic reception of Du Pont turf fungicides by golf course superintendents throughout the country. Mr. Kronn goes on to say: "I begin my spray schedule in late May with 3 ounces of "Tersan" 75 turf fungicide per 1,000 square feet and continue weekly applications through early September. During the hot summer months, I add approximately $\frac{1}{2}$ ounce of "Semesan" turf fungicide. In addition, I use "Tersan" 75 for snow mold control, applying 6 ounces per 1,000 square feet in early December and again in late February at the same rate.

"I've been very happy with the results. Du Pont turf fungicides never discolor our greens... even at the time of application. My men like to use them because they are easy to apply and never irritate their faces and hands as some other chemicals do."

Properly applied to greens, "Tersan" 75 and "Semesan", used separately or in combination, are highly effective in the prevention and control of large brown patch and dollar spot, while "Tersan" 75 used alone gives good control of snow mold.

"Tersan" OM fungicide combines the effectiveness of "Tersan" 75 and "Semesan"—an organic mercury—for excellent wide-range disease control with the maximum degree of safety to turf.

To maintain the proper nitrogen level on tees, fairways and greens, use "Uramite" ureaform fertilizer, the 38% nitrogen that feeds turf gradually and as needed—for months—without burning.

For full information on "Tersan" 75, "Semesan", "Tersan" OM and "Uramite", see your local golf course supplier... your service agency.

On all chemicals, follow labeling instructions and warnings carefully.

team spirit, setting up training rules, selecting the first team and conducting tournaments. Also covered are the all-important techniques for gaining recognition and building local pride through newspapers and other publicity media.

A major portion of "How to Coach and Play Championship Golf" deals with the game of golf itself and how to teach it, starting from the fundamentals and working up to the finer points of strategy and tactics that separate the champions from the runnersup.

Included is a discussion of what Coach Williams calls the "reproductibility factor" that enables a top-notch player to repeat his best shots time and time again.

Byron Nelson is among those who gives Williams' book a strong recommendation.

The Anatomy of Golf. John Stobbs. Emerson Books, Inc., 251 W. 19th st., New York City. Price \$3.95.

Here is a book that analyzes golf play in action and comes up with specific answers to the problems that every golfer runs into. The things that can go wrong, as any

golfer knows, are myriad. From his own experience, and from extensive observation and study, a noted writer and golf analyst here deals effectively with the many and varied aspects of the game.

Full Coverage

Covered fully are: the different strokes; how and when to use each club; how to hit the ball; the simplest shot in the world; using the iron; driving; hitting the ball straight; timing; ways of getting out of trouble; style and method; putting; the proper use of spin; the ten crooked shots of golf; recovery play; the tactics of match and medal play, etc. Psychology and temperament as factors in the game are dealt with, as well as such subjects as how to make best use of a pro and how to benefit from watching professional tournaments.

Anyone who has ever gone out for a round of golf and felt he wanted to better his game should profit from this book, says the publisher.

GOLFERS LOVE SAMMY

Special brush and scraper for keeping golf shoes clean

Retailing at only \$1.95, Sammy is a hot impulse item for golfers. Very practical too. Designed expressly for golf shoes, the patented Sammy brush has a built-in tool for scraping mud, sand and grass off spikes, ripple soles and welts. Stiff plastic bristles do a thorough cleaning job. Has natural hardwood finish and a handy shoehorn handle. Duffer or pro, everyone will want a Sammy in his bag. Attractively packaged, it's a fast seller, a perfect gift. (Plain-handled economy model retails at \$1.50.) For complete details, and your dealer price, write Sammy Products Co. today.

LOOK! A MAGIC TOWEL TOO

Another favorite. Specially designed for cleaning club heads and balls. Extra-absorbent Turkish towel with wonder-material pocket that whisks off the last traces of dirt and grass that could foul a drive. Available in four distinctive colors: fire red, buttercup yellow, lime and sand beige. Retail for \$1.25.

D'Angelo Describes Changes in Women's Open Layout

According to Jimmy D'Angelo, the professional there, quite a few changes are being made in the Dunes Golf and Beach Club course, Myrtle Beach, S. C., for the 10th Women's Open. The event will be played at the club June 28-30.

Major changes involve four holes. No. 6 is being reduced from 415 to 375 yards and is rated a par 4. No. 12 is being cut back from 170 to 153 yards. No. 15 is being lengthened to a par 5 hole, being increased from 365 to 462 yards, while No. 18 is being cut back from 510 to 390 and a par 4. Most of the Dunes' fairways are being drawn in to 45 yards width in the landing areas and to 35 yards in the green areas.

Both Sides Par 36

The first 9 will play to 3,240 yards and the second to 3,160. Both are par 36s. The women's course record of 76 is held by Mrs. Kent Stratford, Summerville, S. C. Billy Joe Patton holds the men's record of 69. He shot it from the championship tees over 6,900 yards.

According to D'Angelo, No. 18 is the most difficult hole on the course since in most cases the player is hitting into the wind. Nos. 4, 6, 7 and 13 also are rated as being extremely tough.

PGA Schedules "Hole-in-One" Contest for September 3

More than 100,000 golfers are expected to take part in the annual PGA national hole-in-one contest, which will be held on Sept. 3. Any golfer who scores or comes closest to scoring an ace on any of the courses entered in the contest will receive club, sectional and national awards, according to Lou Strong, PGA pres.

Waryan Heads Committee

Don Waryan, national vp from Hopkins, Minn., heads the hole-in-one committee. The event, in its sixth year, was originated by Leonard B. Schmutte, former PGA vp and longtime pro at the Findlay (O.) CC. He was chairman of this activity from 1957 through 1960.

If a club holds a separate contest for men and women, two club awards will be presented, one to the woman and one to the man winning the contest at the club.

Applications for entries must be received

Superintendent's Labor-Savers!

CUP-LESS

The **NEW**, practical practice putting target rings. . .

**Easy on greens —
Easy on golfers!**

- Eliminate constant cutting and re-cutting of putting cup holes on practice greens.
- Eliminate player stooping and bending to remove balls from putting cups.
- Eliminate concentration of turf wear and tear on practice green surfaces.
- Allow players to choose their own practice putting lines.
- Get more mileage out of practice putting greens — save on maintenance costs!

CUP-LESS practice putting target rings have inside diameter of $4\frac{1}{4}$ inches (same size as regulation putting cups), are easily moved with putter blade to any location on green — spreading traffic wear and tear over entire green surface instead of localizing it. . .

Packaged in dozen lots

1 doz. . . \$10; 2 doz. . . \$18

Shipments prepaid from:

**WOODSIDE GOLF
& PARK SUPPLY CO.**

Des Moines 13, Iowa

ed at PGA headquarters in Dunedin by 5 p.m. on Aug. 1. To enter, a pro must fill out an official application and pay a \$5 entry fee. The fee is \$10 if separate but simultaneous men's and women's contests are to be held.

To help pros publicize the contest at their clubs, the PGA sends a "Hole-in-One" promotional kit to those who participate.

Open Evans Chapter House at Ohio State University

The Evans Scholars Foundation is establishing both a chapter and chapter house at Ohio State University. Ohio State becomes the eighth major university at which a chapter has been activated, according to W. F. Souder, Jr., pres. of the Western Golf Association, sponsor of the Foundation.

Twenty-four Ohioans are attending college this year on Evans scholarships and 16 of them are Ohio State students. Next year, 25 youngsters, the minimum number for a new chapter, are expected to attend Ohio State on caddie scholarships. Western Golf has leased a property at 1909 Waldeck St. in Columbus to house the students and plans to purchase a permanent site within the next year.

A total of 443 Evans Scholars are enrolled in 26 universities throughout the U.S. this year. Illinois, Michigan, Wisconsin, Michigan State, Northwestern, Marquette and Minnesota have chapter houses. The four-year scholarships are valued at more than \$3,000.

To qualify for a scholarship, a boy must be an outstanding caddie at a WGA member club for at least two years, must graduate in the upper 25 per cent of his high school class and must need financial assistance in order to attend college. Scholarships are awarded on a competitive basis taking the above factors into consideration.

Oh, Well, That's Life!

Every gripe we hear from the golfer we can match with ten. We have to keep our mouths shut because we are expected to perform miracles and give our friends who pay to play, well groomed golf courses at all times regardless of weather.

—Northeastern GCSA "Collaborator"

R.A.R. GOLF BALL RETRIEVERS

Simple—Rugged—Efficient!

Dr. Ray Richardson, inventor of the R.A.R. Golf Ball Retrievers, appears in photo at right with Golf Professional Errie Ball who uses R.A.R. Retrievers at each of his two clubs — Chicago's Oak Park CC and Tucson CC in Arizona. Ball says:

"The R.A.R. Retriever is the fastest and easiest method of picking up golf balls. In over six months' constant use at each club we have had no damaged golf balls. These machines work even on a rain-soaked driving range and they get golf balls out of the rough terrain and uneven low spots more perfectly than any other retriever I have ever used!"

Both the single and double units shown here can be pulled by an ordinary golf car. Outriggers have 'side-kickers' to sweep balls out of low spots and tall grass. Basket opening has rubber lined paddle wheel to ease balls into basket.

Single unit covers 11 foot swath, basket holds 700 balls, can be emptied in 30 seconds. PRICE: \$268.00 F.O.B. Tucson

Absolutely Guaranteed for one year! **TEN DAY FREE TRIAL — NO OBLIGATION**

Double unit covers 15 foot swath; the two baskets have a combined capacity of 1400 golf balls, can be emptied in one minute. PRICE: \$389.00 F.O.B. Tucson.

A few of the well-known golf professionals now using R.A.R. Golf Ball Retrievers:

- Paul Runyan**
La Jolla CC, La Jolla, Cal.
- Phil Greenwald**
Paradise CC, Crystal River, Fla.
- Dutch Harrison**
Olympic CC, San Francisco, Cal.
- John Gibson**
Westmoreland CC, Wilmette, Ill.
- Roland Harper**
Colonial CC, Fort Worth, Tex.
- Basil DeLong**
Lakewood CC, St. Petersburg, Fla.
- George Keyes**
Arizona Biltmore, Phoenix, Ariz.
- Robert Hummel**
San Diego CC, Chula Vista, Cal.
