

Give New Range Ball Machine Heavy Workout at Dunedin

Pros had an opportunity to see for themselves that Ball-O-Matic, the automatic washing, storing, counting and dispensing practice ball machine, delivers the goods, during the recent

Bruce Jacobs (r) gives GOLFDOM editor, Herb Graffis, a peek at Ball-O-Matic's insides.

PGA merchandise show at Dunedin, Fla. They put it through all the tests, studying its mechanism operation from the coin release through washing, storing and adjustable counting and dispensing. "This wasn't the machine's first baptism under heavy pro test firing," said Jerry Jensen, Ball-O-Matic's pres. "That continuous eight-day barrage of testing and questioning not only convinced a lot of pros but satisfied us that our machine will measure up to the performance that is expected of it." Complete details from Ball-O-Matic, Inc., P. O. Box 5606, Denver, Colo.

Gibbs Named Assistant VP of Dunlop Golf, Tennis Sales

Paul W. Gibbs has been appointed assistant vp in charge of sales of golf and tennis equipment for the Dunlop Tire & Rubber Corp. A veteran of 25 years with the firm, Gibbs worked out of the Richmond, Atlanta and N. Y. divisions before joining Dunlop's New York headquarters in 1953. At one time he was tour mgr. for Vinnie Richards, Bill Tilden, Alice Marble, Fred Perry and other famed tennis stars. He also was affiliated with the Eastern Lawn Tennis Assn. and the Manufacturers' Committee of the PLTA. Currently, Gibbs serves as a director and finance committee member of the National Golf Foundation.

GOOD ROADS MULCH-VAC SWEEPER

Leaves are everybody's problem! For fast, efficient removal of debris, and wet or dry leaves use a towed B-25 Mulch-Vac which can cover more area more efficiently than men using other methods. The debris will be collected by the Mulch-Vac, mulched, and then deposited in a four cubic yard cage attachment. If desired, leaves can be vacuumed, mulched and then automatically re-spread as natural fertilizer.

**Pro-Dough Designed to
Stimulate Pro Shop Sales**

A new kind of sweepstakes scorecard, designed to stimulate pro shop sales, is being marketed by Pro-Dough, 3838 Wynkoop st., Denver. The new handicapping method is described as a volume builder and a way of getting players to take a greater interest in their handicaps. The scorecard is designed to reveal players' handicaps after completion of a round. A winner has his 'Pro-Buck' certificate signed by the pro, entitling him to merchandise. Golfers may play as many cards as they wish in a round. Franchises for distribution still are available, according to Pro Dough.

25,000 Cub Cadets Built

International Harvester turned out its 25,000th International Cub Cadet early in the year. The Cub was put into production about a year ago to meet the demands of the small tract owned. It performs such multiple jobs as soil preparation, seeding, fertilizing, mowing, lawn sweeping, snow removal and earthmoving.

STOP BALL MARKS ON GREENS with this

DIVOT FIXER

Let's see what punishment the greens must take. 20,000 rounds of golf means 20,000 shots to each green.

If 10% hit the greens it would mean 2,000 holes per green each year.

Repairing these holes an hour later or next day is useless. The damaged turf must be repaired at once to avoid a hole and brown spot.

Make your own test. Just try to repair an old ball mark. Then a new one.

Our little Divot-fixer tool can help you solve this problem.

Febco Economy Kit for Sprinkler Installation

An economy kit, produced by Febco Inc., 1993 Blake ave., Los Angeles 39, is said to be ideal for small tract installation where cost of a

fully automatic sprinkler system is prohibitive. It consists of a Febco EM-8 semi-automatic controller and up to eight No. 1826 electric control valves, sufficient to handle most installations with $\frac{3}{8}$ to $1\frac{1}{4}$ in. valves. The controller, no longer than a transistor radio, is mounted in any sheltered spot and connected to electrically actuated valves by simple wiring. The kit also may be used to convert existing, manually operated systems to semi-automatic operation.

New Etonic Model

A new black and white softer grain golf shoe is styled in Etonic's "Heart Wing" pattern and may be worn with or without kiltie. The shoe has full length cushion innersole, exclusive weather-sealed construction and glove leather lining. Made by Charles A. Eaton, Co., Brockton, Mass., is available only at pro shops.

Designed for Rugged Terrain

The Spartan H-C (Hill Climber), a new gas powered car made by Golf, Inc., Tulsa, Okla., is on the market. It is designed expressly for hilly and high altitude terrain. Spartan H-C has a heavy duty Salsbury torque converter, gear ratio of 45:1, and the front end has added weight for better stability. The manufacturer also states that it is vibration free because of a three-point rubber engine mount.

Golf, Inc., recently announced the appointment of Allen Younkin as sales rep for New Mex., Ariz. and Southern Calif.

Ryan Catalog Describes Two Turf Cultivator Additions

Two additions to the Ryan line of maintenance equipment are the Spikeaire and Mataway. The former is an automatic spiking unit recommended for hot weather use, and the latter, a vertical slicing unit for control of running stem grasses. The Mataway has a quick-change reel assembly, making it adaptable for a number of uses. Both units are described in the Ryan firm's 1962 catalog that describes other products made by the company: Sod cutters, Greensaire, Renovaire, Tracaire, Self-propelled roller, Ren-o-Thin and Motoraire. Ryan Landscaping Equipment Co. is located at 871 Edgerton st., St. Paul 1, Minn. The catalog can be obtained by writing to the company.

Mower Goes 'Round and 'Round

A Sunningdale, Eng. firm has a Ransomes Sims "Marquis" mower circling a track in front of its display rooms as a promotion stunt. The

mower travels 16 miles a day over plastic covered concrete block and early in the year had put 1,000 miles behind it. Ransomes Sims & Jefferies, Ltd., which makes the Marquis, is located in Ipswich, Eng.

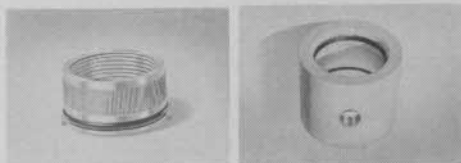

Consolidated Pipe Reps

Consolidated Pipe Co. of America, 1530 Commerce dr., Stow, O., has appointed three sales reps to handle its plastic pipe in the Midwest and Southeast. M. E. Borngesser & Sons, Mequon, Wis., covers Wis. and Michigan's Upper Peninsula; Robert J. Meunier, 2562 Holmes ave., Kansas City, Mo., handles Kans. and Western

Mo.; and A. Jack Acuff Sales Agency, 272 Patterson ave., S. E., Atlanta, Ga., is Consolidated's rep in Ga., Tenn., Ala. and Northwest Florida.

**Pre-Tapped Coupling Saves
on Materials, Labor Costs**

Keasbey & Mattison, Ambler, Pa., has introduced a new pre-tapped coupling for asbestos-cement water pipe. A threaded brass insert in the coupling eliminates field tapping for connections and assures a water-tight joint for risers, plugs, etc. K & M points out that use of the

pre-tapped couplings eliminates the usual cost of material and labor for field tapping. The couplings are available for pipe diameters from 3 to 8 ins. and have either A.W.W.A. threads ($\frac{3}{8}$ to $1\frac{1}{4}$ ins.) or iron pipe threads ($\frac{3}{8}$ to $1\frac{1}{4}$ ins.).

**Claim 54 Holes per Charge
for Go-Far Car**

New in the car market is the Go-Far, a lightweight vehicle that is said to travel up to 54 holes on a single charge. It features a sim-

ple electrical system with no solenoid switches to burn out, according to the manufacturer, Go-Far Corp., Golf Car div., Box 346, Phoenixville, Pa. A built-in transformer using an ordinary 110 volt extension cord makes a battery charger unnecessary and the drive system is said to deliver 95 per cent of power direct to the wheels. The foot pedal serves as accelerator

and brake and there is no clutch. The car carries two persons 8 mph and its low gravity center and a wide wheel base in front make it unusually safe to operate. Go-Far weighs about 450 lbs.

**Aqua-Dial #15 Designed for
Original or Conversion System**

The Aqua-Dial #15 is a gear-driven rotary pop-up with 190 ft. diameter coverage that can be installed as new equipment or be used to convert quick coupling equipment. Conversion doesn't require changes in the present pump or piping system. On automatic, the nozzle cover pops up when the watering cycle starts, rotates slowly and then drops freely back into the body when the cycle is completed. The #15 has three-sweep nozzle for pinpoint control. The unit is made of durable non-corrosive materials by Aqua-Dial, PO Box 1325, Newport Beach, Calif.
