**The Ford 601 tractor and Rotary Cutter
save money when you buy them and
when you use them**

Saving on the initial cost of this practical Ford outfit, combined with the low operating and upkeep costs, add up to an important reduction in ground-care expense. But that's not the end of your savings: This go-anywhere unit will save a lot of time and operator wages by breezing through heavy weed infested growths, in short rank growths, on steep hills, and on rough, uneven ground. You can even add a mulching attachment to the cutter, saving a lot of hand work in clearing fairways of leaves and fallen branches.

Ask your Ford Industrial dealer for a demonstration during "first cutting" this spring. You'll like what you see.

FORD

At Vanity Fair Golf Course, Jackson, Ala.—

Tees, fairways and greens are vigorously all year round

Teeing off at the Vanity Fair Golf Course, Jackson, Alabama, is George Heard, Personnel Manager of Clarke Mills. Top playing conditions are always maintained on this course with the help of Du Pont Turf Products.

Superintendent Robert L. Tompkins says, "In the fall of '59, we made our first application of Du Pont 'Uramite' ureaform nitrogen on greens and tees at the rate of 25 lbs. per 1,000 feet."

"As an experiment, the fall of 'Uramite' per acre on the No. 1 with the results," reports S kept its dark green color all throughout the winter. The next to all fairways, at the same Du Pont 'Uramite' provides vigor with consequent elimination of

are kept healthy and growing with Du Pont Turf Products

... of 1959, we applied 300 lbs. of
... 0.1 fairway. We were very pleased
... Supt. Tompkins. "The fairway
... and maintained steady growth
... next spring, we applied 'Uramite'
... rate with equally good results.
... vigorous turf growth at all times
... of many weed problems."

"Each year, two applications of 25 lbs. of 'Uramite' per
1,000 square feet are made on greens and tees. 'Uramite'
helps keep greens in excellent playing condition.

"We use Du Pont 'Tersan' OM and 'Tersan' 75 in a reg-
ular spray program and have found them very effective for
disease prevention and control. We haven't had a disease
outbreak of any importance since the course was opened in
1959," concludes Mr. Tompkins.

BETTER THINGS FOR BETTER LIVING
... THROUGH CHEMISTRY

On all chemicals follow label instructions and warnings carefully.

of the grounds, roads and other expenses are not properly chargeable to the maintenance dept;

(2) The green chairman should have prior experience with the green committee and be qualified to work out the correct balance between the course's and clubhouse's use of the club dollar;

(3) The chmn. generally should be the business manager of the chmn.-supt. team, working out policy problems. The supt. should be the operations planner and manager.

Should Know Financial Picture

Andy Bertoni, Meadowbrook (Detroit dist.) supt., said that supts. can do a better job of course management if they learn from the chmn. the club financial picture. In this way they can discuss with the chmn. how to use course budgets to make the best showing.

Harry Eckhoff, National Golf Foundation eastern field representative, said that the \$1½ billion investment in golf properties puts them beyond the point where any phase of the club's business can be handled by outgrown or amateurish methods.

Highlights of observations by others

at the conference:

When one of your members makes a critical comparison of your course with another course, ask him when he played the other course. If he played it in early June, and is criticizing yours in late July, he needs education;

Time saved in getting greens mowed early before play gets heavy may justify buying another mower;

Some clubs prohibit play before 9 a.m.;

Directors of most private clubs have very little idea of a supt's problems. The supt. should attend at least one directors' meeting a year to get an overall idea of how the club is run;

New green chmn. and heads of other committees rarely have records of past performances and results to which they can refer in planning their work with supt. or other supervisory employees.

Henry Ziegenthaler, supt., Miami Valley CC, Dayton, O., said chmn. could make the job smoother for supts. and more pleasing for members if the chmn. would send members letters telling the why, when, how, etc. of major work done on the course.

National Golf Fund Distributes \$50,000

National Golf Fund, Inc., members and directors at the Fund's 10th annual meeting in Clearwater, Fla., on Feb. 10, distributed to educational, welfare and charity activities a sum of \$50,000. The fund was raised in the 1961 campaign in which golfers paid \$1 to compete against Arnold Palmer and Jay Hebert. National Golf Day is sponsored by the PGA. It has raised \$851,647 from golfers for activities within and for golf in the last 10 years.

National Golf Day income is distributed as follows: 45 per cent to educational programs; 30 per cent to golf charities; and 25 per cent to general educational (caddie scholarship) operations.

Distribution of 1961 Fund receipts:

PGA Educational Fund	\$10,000
USGA Turf Research Fund	6,500
GCSA Scholarship Fund	6,000
Jaycee Jr. championship	3,000
PGA Relief Fund	3,000
PGA Benevolent Fund	2,500
National Amputee Golf Assn.	3,000

U. S. Blind Golfers' Assn.	1,500
United Voluntary Services (Swing Clubs)	2,000
Caddie scholarships	12,500

Fred Riggan, sr., was re-elected pres. of the Golf Fund. Mrs. Owen West was elected to the Fund's board of directors which includes Riggan, Thomas W. Crane, Fred Brand, Jr. and Herb Graffis of Golf-dom.

British Study Golf Swing; Hope to Mass Produce It

The Golf Society of Great Britain has engaged six scientists to spend the next three years in an effort to uncover the secrets of a good golf swing. The Society points out that many famous golfers have tried to explain the secrets of their swing, but in actual performance, don't carry out what they preach. The British researchers will examine the muscle action of a perfect swing, determine a formula for it and then try to mass produce it. (At this point they concede they may not find the perfect swing they are looking for.)

THE LOGICAL WAY TO SHIP GOLF CARS! *Uncrated - Via Enclosed Vans*

- ◆ Eliminate Crating and Uncrating

enjoy extra CLUB INCOME

Sturdy, lightweight Men-E-Uses Golf Scooters offer more profitable fleet operation at smaller investment

Now you can build greater club income and improve golfing enjoyment with a fleet of these smart, new low-cost golf scooters. Rental fees of these "Men-E-Uses" Golf Scooters pay for them in a surprisingly short time, then continue to provide a healthy, dependable income for your club. For instance you can buy 3 to 4 times as many "Men-E-Uses" Golf Scooters, cut your rental rate in half, and realize a 50 to 100 per cent return on the same investment.

Players like Men-E-Uses Golf Scooters for many reasons. They like the quiet operation, the way it takes them up steep slopes and rolls smoothly through the rough. Equipped with foot starter, two speed transmission, automatic brake, and safe "Accentrifork" steering with speeds up to 10 m.p.h. Ideal for scores of other uses including pulling lawn mowers, leaf sweepers, hauling rubbish or over the road use. Write NOW for prices and further details.

Sherwood Moore Elected GCSA President

Sherwood Moore, supt. at Winged Foot GC in Mamaroneck, N.Y., is the new pres. of the GCSA. He was elected at the annual convention to succeed L. E. (Red) Lambert of Prairie Dunes CC, Hutchinson, Kans., who held the post in 1961.

Other GCSA officers are: Roy Nelson, Ravisloe CC, Homewood, Ill., vp and Edward (Ted) Roberts, Jr., DuPont CC, Wilmington, Del., sec.-treas. The directors are George L. Lanphear, Ojai (Calif.) CC; David S. Moote, Rosedale GA, Toronto; Riley Heckert, Hershey (Pa.) CC; Lawrence G. Mattei, Kingsboro GC, Gloversville, N.Y.; Bob Shields, Woodmont GC, Rockville, Md., and Lambert.

Moore, who has one of the big jobs in golf in keeping Winged Foot's 36 holes in traditional excellent shape, was for several years one of the more tireless behind-the-scenes worker in the GCSA before the organization rewarded him with the presidency. He has been in the turf field for about 25 years, receiving his indoctrination at the Stockbridge school of the University of Massachusetts in the mid '30s. After getting his diploma there he worked for three years at Passaic County GC in Patterson, N. J. In 1939, he was named supt. at Lake Mohawk GC, Sparata, N. J., and held this position until 1941 when he was inducted into service.

In service he was with the 29th Infantry for 1½ years, transferred to the Air Corps and attended Meteorology school and then served as a weather forecaster with the 8th Air Force in the ETO.

In 1946, Sherwood went back to Lake Mohawk for a year and between then and 1958 when he took the Winged Foot job, he was supt. at Crestmont in West Orange and Hollywood GC in Deal, both in N. J.

Moore is a native of West Haven, Conn. He received his grade and high school education in Northhamptona, Mass. He and his wife, Marie, one of the more popular members of the set who suffer with their supt. husbands, make their home in Larchmont. They have three children, Sherry, Carol and Glenn.

Sherwood apparently doesn't see enough of the soil at Winged Foot. He list his No. 1 hobby as gardening, but quickly adds that he collects stamps and likes to read and swim.

Beautiful Holmes GOLF CLUB HERALD

SHOWS YOU HOW TO
CUT HIGH MAINTENANCE COSTS!

This new Beautiful Holmes "Golf Club Herald" is must reading. 12 pages of documented proof how BEAUTIFUL HOLMES GOLF CLUB CARPET has made par for the course at top flight country clubs all across the country — shows how these beautiful wiltons are tailored specifically to meet the varied and exacting demands of pro rooms . . . lounges . . . locker rooms — anywhere and everywhere that beauty and rugged durability must be combined. Case histories . . . illustrate the way BEAUTIFUL HOLMES GOLF CLUB CARPET solves a club's unique need for a flooring that must provide an atmosphere of relaxed graciousness, yet stand up to the assaults of tracked-in-turf, cleats, and lots and lots of traffic. Long lasting, easy to maintain, BEAUTIFUL HOLMES GOLF CLUB CARPET is a long-range money-saver. Send for your copy of "The Herald" — it could be the first step in reduced maintenance costs for your club!
