## TURF MAINTENANCE IS AN *Art*

After several years in this business we doff our hats to the golf course superintendents. They deal with beauty. They have to control the natural beauty and improve and maintain the man-made beauty. They must always be on alert. Today Mother Nature

may be their ally, tomorrow, their deadly enemy. Greens, tees, fairways must play their best. B. Hayman people work with these men constantly. We know their problems, and they like our advise. Give us a call when you need help.
