

*In only five years this perfect, uniform hedge grew to ten feet from 2 to 3 foot Tallhedge plants 30 inches apart. Never trimmed, except to even up the top at picture time, the hedge maintains a naturally neat appearance.*

Now Cole's beautiful new

# Talhedge

*Rhamnus frangula columnaris*. P.P.1388. Luely

gives you perfect hedges and screens at low cost

**NEW BEAUTY.** Now, for the first time, Tallhedge, the most beautiful new hedge plant introduced in America in decades, fills a long-standing need for a tall, narrow hedge that always looks freshly trimmed.

**DENSE, FAST-GROWING.** Tallhedge quickly forms a neat, compact, narrow hedge or screen 12 to 15 feet high, yet can easily be kept as low as 4 feet. Averages 4 feet wide at maturity.

**STAYS NEAT.** Tallhedge needs practically no care. The hedge illustrated above was never side-trimmed. Note how the dense foliage grows almost from ground level.

**VIGOROUS FOLIAGE.** Lustrous, heavy, dark green leaves are enhanced by a summer-long succession of attractive berries changing from cream to pink, red and black.

**LOW COST.** 30-inch spacing is ideal for Tallhedge—takes  $\frac{1}{4}$  to  $\frac{1}{2}$  as many plants as a privet hedge of equal length at about the same cost per foot. Saves planting cost, too.

**EASY MAINTENANCE.** Tallhedge is extremely hardy and adaptable—needs no special care. Sides need not be trimmed. Slight shearing at top when young will maintain an even line at any desired height.

Cole's New Tallhedge is the ideal screen for:

- Tees and Greens
- Practice Greens
- Swimming Pools
- Tennis Courts
- Adjacent Property
- Nearby Traffic
- Storage Areas

## Completely Safe for Planting

MILORGANITE, unlike chemical fertilizers, contains no soluble salts that might injure young seedlings, stolons, or newly laid sod. Applied at 40 to 50 lbs. per 1000 sq. ft., it is not only the *safest starter* but *lasts much longer* than other fertilizers; contains every plant food known to be needed. Its 1500 lbs. of Humus per ton is especially effective on raw sub soils. MILORGANITE can be applied equally well with conventional spreaders or hydro-seeders.

provide correct answers easily in a businesslike manner.

During the British Amateur, Miss Vicky Macdonald, fiancée of Michael Lunt, the winner, hauled his clubs around the course on what we call a "bag cart", the New Zealanders call a "trundler" and the British call a "trolley" . . . Lunt beat four Americans, the 1962 British Amateur champion, Richard Davis, Billy Nicks, D. Edgar, Updegraff and Chris Blocker . . . Tom Scott, British Golf Illustrated editor, forecasts that when Blocker gets out of the army and turns pro, he will develop into one of the U. S. stars . . . Henry Cotton and Bill Cox, British Ryder Cup veteran who does considerable teaching in England, say that the American amateurs' game from 75 yards into the hole is the reason the British have won the Walker Cup only once.

Richard Kensinger and Earl Stouffer open 1,630 yard Par-30 in Lombard, Ill. . . . They call it a "compact" course . . . Maxon Construction Co., Tucson, building Tucson Green Valley retirement community, including course . . . University of Arizona Foundation is sponsor of the development . . . Open short nine with holes from 100 to 295 yds. at Clayton

A Rain-O-Mat sprinkler head is shown spraying water onto a lawn. The sprinkler head is circular with a central nozzle and a base. The water is being sprayed in a fan shape. The lawn is green and appears to be well-maintained.

# "YOU'RE YEARS AHEAD WITH A HARDIE SPRAYER"\*

SAYS: **Jack Baker**, PAST PRESIDENT, GOLF COURSE SUPERINTENDENTS ASS'N OF S-California

THE VALLEY CLUB OF MONTECITO,—Santa Barbara, California

## THIS HARDIE SPRAYER IS 30 YEARS OLD ...AND IT'S STILL LIKE NEW

This Hardie Sprayer was bought in 1932 . . . Jack Baker, Superintendent of the Valley Club of Montecito stated: "We've had the finest of performance from our Hardie, and with its continual use for more than thirty years, it is still in good dependable condition . . . I use two of the deadliest weed killers available, and with Hardie's wooden tank as part of this fine sprayer, I've never had to think about replacement . . . In fact, other golf courses familiar to me have replaced their spraying equipment three or four times in this same period of time because of steel tanks."

Hardie Hi-Pressure sprayers are available in sizes from 3 to 60 gallons per minute. Pressure is adjustable from 50 lbs. for hand spraying to 800 lbs. for hand spraying greens, shrubs, etc. The Hardie Hi-Lo pressure regulator weed boom gives you quick change-over from high to low pressure, insures constant and accurate low pressure at all times, and is considered by many Golf Course Superintendents as the ultimate in boom design and performance.

Hardie manufactures a complete line of sprayers for golf courses or turf specialists

that have either the famous long lasting wood tank, or the conventional interior coated steel tank. A complete selection of single and multi-nozzle spray guns for selective greens and shade tree work are also available. Write to Hardie today . . .

Ask for literature, a Salesman, or both . . . Whatever you wish.
