New Johns-Manville PVC Pipe* with Ring-Tite Joints for Irrigation Systems

NO LEAKS J-M PVC Pipe is the only one that offers the Ring-Tite® Joint with a rubber sealing ring in the bell. Bell an integral part of pipe. No weld problems. Takes seconds to install... forms a joint that prevents leaks.

HIGH FLOW The smooth inner wall (C=150) means more water delivered at lower pumping costs. It stays smooth, too.

NO RUST, NO CORROSION J-M PVC is not affected by aggressive soils or water. It resists internal and external corrosion.

NO PROBLEM WITH EXPANSION OR CONTRACTION Eliminates stresses and strains that occur with solvent-weld

joints. Ring-Tite Joint permits expansion and contraction within the bell.

NEW J-M FINANCE PLAN J-M is prepared to help finance your irrigation system. The plan covers pumps, engines, fittings, pipes, sprinkler-heads and other accessories. Even installation costs.

Johns-Manville PVC Pipe is ideal for irrigation lines. It forms a system that'll do a better, more economical job than any other available today. For further information on J-M irrigation pipe, plus complete details on our new finance plan, write to Johns-Manville, Box 362, GO-7, New York, N. Y. 10016. Cable address: Johnmanvil.

*APPROVED, BY NATIONAL SANITARY FOUNDATION, FOR POTABLE WATER.
