## All Played on Courses Using Dr. Allen's True Organic!

**CARL SMITH / National PGA Country Club / Palm Beach Gardens, Fla.**

The life in Dr. Allen's "True Organic" has added new life to my turf . . . This living product feeds the soil as well as the turf. It makes sense to me, that to obtain sturdy, healthy turf, you need good rich fertile soil. "True Organic" gives me both! Even the heaviest applications of plant nutrients lose effectiveness unless the soil is fertile . . . I'd say the life in "True Organic" (Dr. Allen says his "workers") must put in a 24 hour day to give results like I've obtained.

**BOB MUELLER / Columbus Country Club / Columbus, Ohio**

Good turf maintenance includes the use of products that give good turf results. This is why I include Dr. Allen's "True Organic" in my regular fertilizing program . . . It's a good product and it gives me good results!

**MEL WARNECKE / East Lake Country Club / Atlanta, Ga.**

For two years I've been beefing up my turf by including Dr. Allen's "True Organic" in my regular fertilizing program . . . I've found that weak soil will not retain nor fully utilize nutrients applied, so I put muscle into mine by feeding it "True Organic". At the same time, I'm also putting new life, vigor and health in my turf! I know "True Organic" . . . is fuel for my soil and food for my turf!

**PAUL E. ALLEN CO.** Route 584, Palm Harbor, Florida Ph. 813 / 733-2141

## **WANTED:** **PRO SHOP DISTRIBUTORS**

We're expanding, spearheaded by a special "Tony Lema Promotion", and need golf pro shop distributors to handle our exclusive line of men's and boys' Jockey sportswear, underwear, sweaters and hosiery. Let us know if you are interested.

### **CONTACT:**

A. F. Eisenman, Golf Pro Sales Division,  
2318 60th Street, Kenosha, Wisconsin

This is more than just a victory smile. It reflects the excitement a woman feels immediately after she has shot a 64. The young lady is Ruth Jensen and her score, which came in the Dallas Civitan Open at Glen Lakes, tied the all-time Ladies PGA 18-hole record set in 1952 by Patty Berg. But in spite of that great one-round effort, Ruth was able to claim no better than third place.

value to the association.

**Rose Park Lions Club**, in suburban Salt Lake City, plants 307 trees on the Rose Park munny front nine . . . James Glover is now manager of Green Hills CC, Greenwich, Conn. . . . John Capello now pro at Scotch Hills CC, Scotch Plains, N.Y. munny course . . . Ronald F. Ferrence to open his Rolling Acres GC 18 near Beaver Falls, Pa., in June, 1965 . . . James G. Harrison and Fred Garbin designed it.

**Bay City (Mich.) CC** selling present 9-

hole site and building new 18 and clubhouse . . . Carmen De Andrea now pro at North Redoubt CC, Garrison, N.Y. . . . Bobby Jack Martin now pro at Rolling Hills CC, Hazelhurst, Miss. . . . Ronald L. Zirkle moves from Everett (Wash.) G&CC to manager post at Columbia-Edgewater CC, Portland, Ore . . . Manager of Brentwood (N.Y.) CC is George Trevor, son of the late George Trevor, who was a golf writer with the N.Y. Sun.

**City Park, New Orleans**, opens its third 18-hole course . . . This is an outstanding achievement in municipal course construction — three championship courses at moderate price . . . President of the board is Ernest A. Carrere, Jr. . . . The golf chairman is Dr. Fred Ketchum and the general manager of the park is Ellis P. Laborde . . . Henry Thomas serves as pro.

**Darrell J. Singleton** now general manager of Talledega (Ala.) CC . . . Phil Martignetti now pro at Pinewood GC, Lucerne, Me. . . . Ken Tuckey, golf reporter of Reading (Pa.) Times, writes: "We honestly believe Berks County has

# A Par-Pony FLEET COSTS LESS

Model 5740  
with  
electric start

## PAYS FOR ITSELF THE FIRST SEASON ...MAKES MONEY FOR YOUR CLUB

It's a great fleet car! Smartly styled, easy to handle, needs little maintenance care, and is priced *under \$575*. With just 150 rounds, it easily pays for itself and makes money for the club the first season.

The AMF Par Pony is popular with golfers. Rides 2 comfortably on a wide foam cushioned seat. Has a roomy tote compartment. Secure side brackets for golf bags. One pedal stop and go control. It has plenty of power for steep grades; brakes securely, even on severe downslopes, and idles so quietly it doesn't disturb the putter.

Whether the course is hilly or flat, you'll find the AMF Par Pony is an excellent choice for your fleet . . . it performs like cars costing twice as much, pays for itself the first season!

trust the triangle for the better buys in fine machines

### CHECK THESE FEATURES:

- Lightweight, only 330 pounds
- Powerful Kohler Golf Car gas engine
- Large Tote Compartment on back of seat
- Automatic Salisbury Transmission
- New improved extra quiet performance
- Special front and rear spring suspension with deluxe foam cushions
- Rugged tubular steel construction
- New, quick bag clamps
- One foot control for Stop and Go
- Extra-wide track tires, standard equipment
- 12 volt electrical system which includes push button starter, generator, voltage regulator, and battery as standard equipment
- Many accessories available including a 3-gang lawn mower unit.

When You're  
Talking Turf...

**DOGGETT FISON**  
C O M P A N Y

## TURF HERBICIDES

### FISONS MCPP SELECTIVE WEED KILLER

A potassium salt formulation containing 2½ lbs. of MCPP per gallon. Made available through Fisons research in England. Developed especially for use on fine turf grasses where control of chickweed (common and mouse-ear), clover, and knotweed has heretofore been difficult to accomplish without injury to bent grasses, bluegrass, and fescues. Because of its safety features, it is slow-acting; full effects from treatments are not visible for about three weeks.

Also available — FISONS DSMA 100 AMA for crabgrass control as well as FISONS DSMA 100 for control of Dallis grass.

## TURF FUNGICIDES

### FISONS DAP-CAL

60% Mercurous Chloride, 30% Mercuric Chloride. Suspension type fungicide based on combination of mercury chlorides for positive long-lasting control of Large Brown Patch, Dollar Spot, Snow Mold.

### 75% Thiram

### FISONS TURF-TOX

Wettable powder 75% Thiram, a proven fungicide for the prevention and control of Brown Patch, Dollar Spot, Snow Mold, Fisons TURF-TOX may be safely mixed with mercury to your own specifications. Apply to prevent disease or to control it after it occurs.

### Thiram with Mercury

### FISONS TURF-TOX MC

One convenient wettable powder formulation that eliminates the need for on-the-spot mixing. Fisons TURF-TOX MC combines the widely used turf fungicides, Thiram, Mercurous Chloride and Mercuric Chloride, for the prevention and control of Dollar Spot, Brown Patch, Copper Spot, and Snow Mold.

Also available — FISONS 10% PHENYL MERCURY ACETATE. Effective for control of Bluegrass Blight, Curvularia Blight, Copper Spot, Dollar Spot, Pink Patch, Snow Mold.

## TURF FERTILIZERS

### FISONS XL TURF FERTILIZER 28-7-14

A concentrated water soluble fertilizer in the popular 4-1-2 ratio suitable for use on greens and fairways. XL Turf Fertilizer provides a better control of growth, texture and color by going to work instantly, feeding through blades and roots.

Also available — XL LIQUID FERTILIZER, 15-10-5, and STOP-WILT, an emulsifiable vinyl compound in concentrated form for preventing moisture loss.

**DOGGETT FISON**  
C O M P A N Y

Springfield, New Jersey

Here's a first tee scene at Broodmoor GC in Colorado Springs during the playing of the NCAA in mid-June. Terry Small, San Jose State, won tournament by beating Jim Colbert, Kansas State, 2 and 1, in the final. Houston University won team title for the seventh time in nine years. NCAA got poor publicity play because it was staged the same week as the Open.

just about attained its saturation point so far as public golf courses are concerned . . . In the past couple of years bowling alley and swimming pool business has leveled off to the point where one must think hard before embarking on a career of becoming a proprietor of a new bowling establishment or the owner of a swimming pool club in Berks County."

Another warning to be heeded came indirectly from the annual meeting of the American Machine & Foundry Co. . . . Its 1963 net income was reported as being reduced to \$9,510,102 after \$9.5 million had been set aside for potential losses on the bowling business . . . And, Brunswick Corp., at its annual meeting, reported a \$15,000,000 "special provision on accounts receivable." . . . Both companies had operating profits in 1963 but writing off losses on the bowling "boom" hurt . . . And Brunswick and AMF are run by shrewd businessmen who got pushed toward the brink by a boom stampede . . . From their experiences in the bowling boom, the golf business ought to learn a lesson.

Stan Wood, who pens fine articles for Golfing and coaches the University of Southern California golf team, had the kind of season that makes the alumni

new Royer  
**POWERSCREEN**  
mechanizes the  
production of fine  
top dressing

Now, preparation of the fine, uniform top dressing required for greens and tees can be a mechanized operation by using the latest of Royer's golf course-designed equipment—the POWERSCREEN. This unit combines the screening and conveying of top dressing into a one-step operation. A sloped-deck, vibrating screen prepares the fine top dressing mixture and a discharge conveyor moves the mixture away from the screen to a height convenient for either stockpiling or loading small trucks or trailers. Ruggedly constructed, the POWERSCREEN features—

- welded, tubular-steel frame
- woven-steel-wire screen with  $\frac{1}{4}$ " openings (other openings available)
- portability—easily moved by one man
- troughing-type, discharge conveyor
- choice of drives—gasoline or electric
- traditional Royer low-maintenance design

Find out more about the new POWERSCREEN by sending for Bulletin PS-30.

When the POWERSCREEN is used in conjunction with a Royer Shredder, both top dressing quality and production are improved. The shredder "Royerates" the top dressing ingredients by a cleated-belt action that shreds, aerates, removes non-shreddables, and blends the ingredients to a homogeneous condition. In addition, the shredder feeds the vibrating screen at an angle and height that assures maximum production.
