Golf Ball Retriever For Water

Verve Co., Inc., 3138 Peachtree Dr., Atlanta, Ga. 30305, produces Aqua Caddy, a rotating drum with metal discs engineered to the width

of regulation balls, for retrieving golf balls from water. Dragged to pick up golf balls, the manufacturer claims the unit more than pays for itself. Available to power the Aqua Caddy is a Pul-Man 3-hp portable unit that operates on gas. This unit has a re-

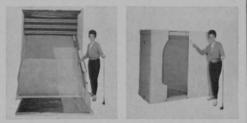

mote pulley that is operated in a precise backand-forth pattern, covering every inch of a water hazard.

Liquid Weed Killer

National Chemsearch Corp., P. O. Box 217, Irving, Tex., produces DK-80, liquid non-selective weed killer which attacks all weeds at root level, but doesn't affect turf. Non-flammable and non-explosive, it is highly concentrated for a high dilution rate.

Par Golf Mfg. Co. Develops Flite Slope Practice Unit

Par Golf Mfg. Co., Milan, Ill., produces a Flite Slope practice unit that can be set up inside or out. When opened, the unit consists of a rubber mat tee platform, with a ball tee that is

adjustable for woods or irons. A canvas "fairway" about 12 ft. in length and 5 ft. wide stretches upward and away to an enclosed backdrop with a sturdy canvas protector (left). Colored guidelines for taking the club back properly are indicated on the tee surface. The unit folds to a 5-ft. high, 6-ft. long and 34-in. deep portable cabinet on casters (right).

A. G. Spalding Earnings Report

A. G. Spalding & Bros. of Chicopee, Mass. listed a net loss per share of 0.21 cents for the three months ended Jan. 31, 1965. However, for the 12-month period ending Jan. 31, 1965, Spalding showed a profit of \$1.16 per share. A ten cents per share dividend was paid on Jan. 18, 1965 and the directors aslo declared an additional dividend of ten cents per share to be paid on April 15, 1965.

Jerilyn Tabbert of Palatine, Ill., Miss Victor Golf Co. for 1965, is pictured with the latest copy of the PGA catalog which contains 32 pages of professional golf equipment. Also highlighted are three compression ranges of the PGA Ryder Cup golf ball.

MacGregor Announces Computerized Customer Service

The MacGregor sports products division of Brunswick Corp. has installed a new and advanced electronic order processing system. Orders phoned into any sales office are transmitted to the company's nearest regional distribution center. There are only three such centers in the U.S. As orders are received and shipped, the computer automatically adjusts inventory records. The electronic system has permitted the company to convert several regional warehouses to sales office centers. Branch warehouses converted to sales offices are located in Chicago, Dallas, Boston, San Francisco and Seattle.

Casson Distributes Sprinkler Filter

Casson Distributing Co., 1615 Haddon, Houston, Tex. 77006, is sole distributor of the General Filtration Corp's. Golf Course Sprinkler. The unit, built to the needs of a course, is designed to eliminate stoppage of remote control valves and sprinkler nozzles and wear on bearing surfaces of sprinklers due to suspended matter found in raw water. To clean the tank and filter cores, filtered water is pumped back through the core and out at twice the velocity used during the filtering process. The backwash operation takes about five minutes.

Car Seat Replacements

R. J. Neuman Co., P. O. Box 249, Glenview, Ill. 60025, provides both seat and back replacements for golf cars. These units are not covers but custom fitted white all-weather Marine fabric upholstery. The car operator or owner can install each unit in about 15 minutes,

West Point Verti-Slicer Stimulates Root Growth

The Verti-Slicer, made by West Point (Pa.) Products Corp. has 23 tempered steel blades that knife through the soil in making continuous incisions. This makes "turf rescue work" possible

during stress periods when more thorough cultivation is impossible. The unit's action opens the way for movement of water and air and prunes roots to stimulate new growth. It is claimed that the tractor drawn Verti-Slicer doesn't injure turf and makes cleanup unnecessary.

Morton Chemical Offers Two Post-Emergence Herbicides

Two new post-emergence turf herbicides have been developed by Morton Chemical Co., 110 N. Wacker Dr., Chicago, Ill. 60606. Mecopex is recommended for application on bent for control of clover, chickweed, knotweed and plantain. Mecopar provides broader-spectrum control than Mecopex. It controls dandelions, lambsquarters, ragweed, Veronica, fernel, spurge as well as clover, and other weeds controlled by Mecopex. Field tests show Mecopar to be safe on bluegrasses, fescues, Bermuda and even bent grasses at fairway cutting height. Both products are water soluble and easily applied by turf spraying equipment.

New Princeton Farm Locations

Princeton Turf Farms, Inc., Box 392, Cranbury, N. J. 08512, has new farm locations at Kansas City, Mo. (P. O. Box 9167, Riverside Branch) and Centreville, Maryland (Box 105A, Route No. 3). These locations will make bluegrass, bentgrass and zoysia sods available to the Baltimore-Washington, D.C. and Kansas City areas.

Fawick Annual Report

According to Fawick-Flexi Grip Co., Akron, O., the parent firm and subsidiaries earned 95 cents a share in 1964. Dividends declared amounted to 52.5 cents per share.
