

Combination Sulky-Scooter Introduced by Giant-Vac

A combination power sulky and scooter designed to push a Giant-Vac power vacuum machine or any other load up to 2000 lbs. has

been introduced by Giant-Vac Mfg. Co. of South Willington, Conn. The unit quickly converts from a sulky (photo) to a scooter by removing the forward sulky attachment bar and replacing it

with a forward third wheel. The models have differential for two-wheel drive and a single wheel drive suitable for flat areas. Both units are propelled by a 4 hp Briggs & Stratton engine with variable speeds from zero to 12 mph and reverse.

PGA Foursome Available in Various Colors and Price Ranges

PGA Golf Equipment Co., 8350 N. Lehigh Ave., Morton Grove, Ill. 60053, offers a complete matching four-

some of golf bag, headcovers, carryall and shag bag. The combinations are available in three popular price ranges and come in black, red, metallic blue and metallic green. All items feature vinyl body material

with matching all-leather trim. Golf bags have steel ring reinforcement in top and bottom, four steel upright supports and all-leather bottoms.

Snow Plow Attachment for Cushman Vehicles

A new snow plow attachment from Cushman Motors, 905 21st St., Lincoln, Neb., is available

for use on all Tru-cksters and Haulsters made after 1959. The attachment rests on adjustable swivel runners and can be attached to or removed from any vehicle by inserting or removing lock pins on each side of the plow, using no tools. The

blade can be set at angle for rolling the snow straight ahead or sideways and is then locked in position by hand with a sector pin. The blade is 54 in. wide and 18 in. high. It is made of alloy steel 3/16-ins. thick with a 1/4-in. thick cutting edge three ins. high. All bolts and small parts are cadmium plated to prevent rust.

**Chamois Golf Glove
from Ben Hogan**

AMF-Ben Hogan Co., 2912 W. Pafford St., Ft. Worth, Texas, is offering an all-weather chamois leather golf glove. For either right or left hand for both men and women, the glove is available in natural color only. It is available only in pro shops.

**West Point Markets
Verti-Groove Renovator**

The Master Verti-Groove is designed to renovate, slice or verti-cut fairway turf (both north and south) according to West Point Products Corp., West Point, Pa. With the renovating reel and slicing blades used in combination for thorough renovation or separately to slice or spike, the unit is five ft. wide and weighs 745 lbs. The unit also is designed with a 3-point suspension for use with PTO tractors.

Cyclone Has Spreader-Seeder

The Cyclone-Seeder Co., Urbana, Ind., markets a model 100 new push-type broadcast spreader-seeder that is ground driven. The unit will spread fertilizer, seed, granular herbicides and insecticides, ice melters, soil conditioners, etc. The hopper holds 100 lbs. of average material and is made of galvanized steel, finished over all in baked enamel. The unit gives a spread width up to 10 ft. wide, depending on the material.

Mats Can Be Illustrated

A solid vinyl plastic inset on which can be faithfully reproduced any desired logo or style of lettering is affixed to vinyl link mats made by American Mat Corp., 1802 Adams St., Toledo, O. 43601. Reproduction can be from art or photo copy and selection of colors is almost limitless. The insert, 24 in. by 36 in. or smaller, is protected by a coating of clear plastic and becomes an integral part of the entire mat. The top surface is ribbed in the same direction as the mat and provides no-slip footing.

Portable Arc Welder is Developed By Lincoln Electric

Weldanpower 130, a portable 130-ampere arc welder, has been developed by the Lincoln Electric Co., Cleveland. Self-contained, the unit is equipped with Kohler's 10 hp engine and weighs 242 lbs. Its dimensions overall: 24 3/4-in. long, 18 5/8-in. wide, 24 in. high. It can be carried by two men, can be moved at the job site on an optional two-wheel undercarriage, and can be transported in a pick-up truck or station wagon. The unit provides ample heat for 1/8-in. electrodes. In addition it provides 3500 watts of single-phase, 60-cycle AC power, available at two receptacles.

Myers Offers New PTO Sprayer with 100-Gallon Fiberglass Tank

A 100 gal., tractor mounted, 3-point hitch, PTO sprayer, with a GlasStan (patented fiberglass material), corrosion-proof spray tank has been introduced by The F. E. Myers & Bro. Co. of Ashland, Ohio.

Available with a choice of 12, 6 or 3 gpm Myers "Du-All" spray pumps,

the unit can be increased by the addition of an optional boom or hand guns. The unit is 40 ins. high, 43 ins. wide and 31 ins. deep. It uses a mechanical propeller-type agitator and the suction line strainer has a rustproof screen. The sight gauge (visible from either side) has been made an integral part of the tank.

Du Pont Herbicide Gets Thorough Testing

E. I. Du Pont De Nemours & Co., Wilmington, Del., markets Tupersan, a weed killer that has been tested on a variety of turfs under a variety of environmental and climatic conditions. It is reported safe for newly seeded turf after being mixed with the seed of many cool season grasses — sowing them together — and producing crabgrass-free, healthy turf. On established turf the chemical's safety has been demonstrated by application at five times the recommended rate without injury to the turf. Tupersan is a wettable non-volatile, non-corrosive powder containing 50 per cent 1-(2-methylcyclohex)-3-phenylurea. When mixed in water and applied as a spray, it is said to control annual weed grasses, but will not harm annual bluegrasses (*poa annua*) or clover and has been applied under trees and ornamentals without injuring them. It is not recommended for Bermudagrass.

Nylon Rain Jacket and Pants Available from Spalding

New from Spalding, Chicopee, Mass., is a "featherweight" nylon waterproof jacket, which may be dry cleaned or machine washed. In small, medium, large and extra large sizes, the

jacket has ventilated yoke back lined with nylon marquisette in the men's models. Water-repellant knit collar and cuffs are featured. Nylon waistband at the back helps assure perfect fit and eliminates "blousing" in front. A large "Pak-Pocket" with a full zipper allows the jacket to be coiled into a pocket forming a unique carrying pouch. It is available in red, tan and navy blue, with ladies models in light blue and eggshell.

With many of the same construction features as the jacket, Spalding also has nylon rain pants with a wide elastic waistband. Large bellows-type hip pocket with a flap that converts into a self-storing "Pak-Pocket", slash vents for easy access to side pockets and adjustable snap leg bottoms are featured. Available in red, tan, and navy blue in sizes from small to extra large.

Quartz Lamp For Golf Driving Ranges & Miniature Courses

Westron Corp., 652 Hudson St., New York, N. Y. 10014, produces a new quartz lamp, which will screw into any ordinary lamp socket, converting it into a floodlight.

The unit consists of an aluminum screw-in body, and a replaceable 400 W quartz iodine bulb, with a rated life of 2,000 hours. Weighing seven ounces, the lamp is a completely open fixture, using internally fused 400 W quartz iodine bulb that is no larger than a cigarette. The unit combines this bulb that produces more light than seven 150 W incandescent bulbs with a specially designed multi-faceted, aluminum reflector, resulting in a bright, intense medium spread light. There are no costly conversion costs and an adaptor is available so the unit can fit mogul outlets. Found to be a strong deterrent to vandalism in unsupervised areas, lamps are particularly useful for golf driving ranges and miniature golf courses, as well as parking lots.

Buyers' Service • P 151

Ken Venturi has signed a long-term contract to exclusively use U.S. Royal golf equipment. Venturi used the new Royal registered golf ball in winning the USGA Open and other tournaments in 1964. He is shown with Fred P. Koehler, national sales manager of the Royal golf equipment div. of the U.S. Rubber Co.

Ransomes Offers Several Mowers

Ransomes Sims & Jefferies, Ltd., Orwell Works, Ipswich, England, produces several mowers ranging from hand to professional automatic gang mowers. Among mowers featured is the 18-in. Auto-Certes motor mower that is reported as ideal for greens and other fine turf. The unit, demonstrated by Supt. John K. Campbell of St. Andrews, Scotland,

on the 18th green of the famous Old Course, has a high speed 10-blade cutting cylinder, separate drive and cylinder clutches. Height adjustment can be made quickly by micro-hand-wheel.

Wilson Sporting Goods Co., 2233 West St., River Grove, Ill. 60171, produces the Classic III golf cart. The unit features all-steel construction with 10-inch, die-cast spoke wheels with soft rubber tires. Wheels have double ball bearings. Wide wheel spread balances the load. A "T" grip gives golfers a firm hold on the chrome-plated handle. Easily stowable in an auto trunk (even with bag attached), the cart has adjustable bag brackets padded with vinyl and vinyl straps.

Wilson Produces Golf Cart with Balanced Wheels

Wilson Sporting Goods Co., 2233 West St., River Grove, Ill. 60171, produces the Classic III golf cart. Bowers has been named vp and sales manager of the East penn Manufacturing Co., Lyons Station, Pa., 19536 . . . East Penn distributes automotive supplies and special application storage batteries.

Par Golf Ball Picker Retrieves in All Kinds of Terrain

After several years of research and field trials, Par Golf Mfg. Co., Milan, Ill., has developed a golf ball picker which it is now marketing. Known as the Par-Ball Picker, the unit has a floating-ball guide that enables it to effectively retrieve golf balls regardless of terrain. The Picker is four feet wide and has two large baskets attached. It is said to be ruggedly constructed, light in weight, has no wheels to adjust and special tools aren't required in maintaining it. Complete details can be obtained from the manufacturer.

Sportsman's to Continue Golf Ball Production in Bay City

Sportsman's Golf Corp., 2020 Indian Boundary drive, Melrose Park, Ill., will continue to manufacture golf balls at its plant in Bay City, Mich. Some readers got the impression that Sportsman's planned to move the operation from Bay City after reading an item on page 119 of January Golfdom, but this is not the case. The plant in Bay City is newly acquired. The company manufactures clubs and bags in Melrose Park. It is building a plant, scheduled to be partly opened in April, in Pontotoc, Miss., where additional production of clubs and bags will be carried on.

Wilson Wedges Said to Give Ultimate in Control

Wedges, produced by Wilson Sporting Goods Co., 2233 West st., River Grove, Ill. 60171, are said to offer the ultimate in response and

control. They have unique shaft-to-sole construction that, the manufacturer says, give a fluid feel that converts swing power into striking power. Prime calfskin grips and 5-Star composition grips are available with the clubs. Two of the models shown are available for lefthanders, with leather grips only.

B. Hayman Co. to Distribute New Turf Utility Vehicle

B. Hayman Co., Inc., 3301 Leonis Blvd., Los Angeles 54, Calif., is sole distributor of a gasoline four-wheeled car designed for turf transportation. The vehicle — The Superintendent — has a large-size utility body designed for the rear mount (where it is claimed a five gang mower may be hooked to the ball-type hitch) and the wheels have individual coil spring suspension. The unit has automatic transmission with four speeds (up to 70 mph), plus passing gear and reverse. It has a Corvair 4-cylinder, rear-engine drive.
