

You share the profit... we take the risk—

## RENT-A-FLEET

It really isn't much of a risk. We know from experience that a fleet of Walker Executives will speed play and multiply the rounds played on your golf course.

But how do you know?

Here's a good way to find out about this money-player at very little cost and with no risk at all.

### ADVANTAGES OF RENT-A-FLEET

The cash outlay is small. The rent is low. You can keep your funds available for other club improvements, so the slow months won't drain your bank account. There is no risk and less trouble.

We take care of any major servicing. Naturally, under this arrangement, we share the profit with you. If you don't like this idea, we'd be delighted to sell you a fleet.

Make sense?

### THE 1965 WALKER EXECUTIVE Gasoline or Electric

Add all-steel, uni-body construction and sports car styling comfort to all the other things you expect from a golf cart...and you have the Walker Executive...a real money-player.

Please send me complete details of the WALKER EXECUTIVE RENT-A-FLEET PLAN and your full-color booklet on the '65 model Executive Golf Cars—gasoline and electric.

Officers and directors of the Iowa GCSA for 1965, elected at recent turf conference held at Iowa State U., are (l to r): Harold McCullough, Oak Creek, Des Moines, director; Richard A. Bruns, Jr., Washington Park, Cedar Falls, president; Don Westfall, Highland Park, Iowa Falls, vice-president; Fred Carey, Finkbine GC, Iowa State U., secretary-treasurer; and Harold Kerr, Valley Oaks, Clinton, director.

## Personnel Training Needed

(Continued from page 70)

The oversight is not necessarily intentional. Or, at least, that is the way Lee Dieter feels. "The primary job of a man who is running a golf course," he says, "is to keep the course in the best possible playing condition. Everything else is secondary. That includes the training of apprentice supts. I have seen, or I know of good supervisory training programs that have been started, but too often they have been junked and not picked up again because the supt. has been put under so much pressure in keeping the course in shape that he has had to give up on them. This is where the system breaks down."

Which leads to the question: Is there any solution to the problem of training an apprentice to handle the most crucial job he is going to have to contend with when he becomes a head supt.?

Lee Dieter suggests this answer: When an apprentice proves he is ready for supervisory responsibility, why not assign three or four or five men to him and make him completely accountable for the work they perform? If the apprentice shows that he is incapable of handling men, maybe that is the time for him to get out of the turf management business altogether.

## Depend on Harley-Davidson to keep your fleet on the job... out of the shop

If you expect your golf car fleet to operate at a profit, talk to a man who knows fleet service — any one of nearly 700 Harley-Davidson dealers. They've been conditioned to efficient service by years of experience with police vehicle fleets (about 3000 currently operating).

Harley-Davidson dealers have the personnel and facilities to keep your fleets in continuous operation. They stock a healthy supply of parts for both gas and electric models. Result? Fast, efficient, *local* service that keeps your fleet out on the course earning profits.

*Proved in Police Fleet-Service For Over Fifty Years*

What's more, Harley-Davidson golf cars rarely need servicing. We build them for *continuous* operation. Ask for a demonstration on your course. See your Harley-Davidson dealer, or write to the Sales Manager, Golf Car Division, Milwaukee, Wisconsin 53201.

## STOP BALL MARKS ON GREENS

with this

### DIVOT FIXER

Let's see what punishment the greens must take, 20,000 rounds of golf means 20,000 shot to each green.

If 10% hit the greens it would mean 2,000 holes per green each year.

Repairing these holes an hour later or next day is useless. The damaged turf must be repaired at once to avoid a hole and brown spot.

Make your own test. Just try to repair an old ball mark. Then a new one.

Our little Divot-fixer tool can help you solve this problem.
