

**Keep fairways in
prime condition -**

**AERATE
SLICE
RENOVATE
with the
RYAN
RENOVAIRE**

The tractor drawn Renovaire features Ryan's exclusive true contour design which allows each wheel pair (6 pairs in all for a 6-foot swath) to follow the "lie of the land". True contour aerating gives equal tine penetration to the high spots and the low spots to relieve compaction

... to hold moisture evenly and reduce erosion . . . to help moisture, air, and fertilizer go deep into the root zone for healthy growth. To improve your fairways, plan a continuous aerating program. Follow spring coring with regular slicing every 2 to 3 weeks into fall, when you core again or renovate before grass goes into its dormant period. If your tractor has a 3-point hydraulic hitch, ask for literature on the Ryan Tracaire.

See how Ryan units team up to do more jobs: improve those trouble spots on fairways with the self-propelled Ryan Mataway. It controls thatch, thins sod-bound grasses, aerates soggy turf—and is also invaluable for regular greens maintenance use. See your Ryan distributor or write:

GOLFDOM

SPECIFICATIONS & PRICES

HEAVY DUTY—Enclosed gear box—geared head—500 ft. galv. cable (600 ft. slight extra cost)—max. coverage: 2¼ acres... *140 ft. x 650 ft. (adjustable)—uses 1" hose—Ship. Wt. 96 lbs. \$325.00

Time Saved... Cost Cut...

Gentlemen:

"We have five Travelrain Heavy Duty Sprinklers in service on our nine-hole golf course. These were purchased in order to permit installation of grass fairways without undertaking the very considerable expense of installing a sprinkler system.

These sprinklers have permitted us to grow grass within the past season on seven out of our nine fairways, and all under the difficult condition of growing grass from seed. The duty on the sprinklers has been heavy, and they have performed very satisfactorily.

We would recommend their use wherever it is desired to irrigate grass fairways economically, and where the cost of a permanent sprinkling system would be prohibitive.

Yours very truly,
H. E. MOORE, President
Douglas Golf Club
Douglas, Arizona"

Cyclone BROADCAST SPREADER / SEEDER

***Saves Time, Materials
—Slashes Labor Costs***

Here's the Cyclone that does almost every spreading and seeding job—up to 5 times faster than drop-type spreaders. Sows seed, spreads fertilizers, granular pesticides, soil conditioners... even ice melters on walks and parking lots. Fan-type spreading disc uniformly broadcasts materials in swath up to 8' wide. No streaks, gaps, or double overlaps!

Write us about smaller Cyclone Hand Broadcasters for putting greens; or big-capacity Cyclone Spreader/Seeders for fairways. We'll send literature and full information—free.

***Broadcast it with a Cyclone...
it's the results that count!***

CLUBHOUSE—PRO

continued from page 66

Ten Points to Ponder

1. When was the last time you changed the locks in your club?
2. Who is responsible for locking every door in your club at the end of the day or seeing they are locked?
3. Who is the first person to see anyone entering your front door, back door, locker room, pro shop, and grounds department?
4. Are the Employees of your club assigned a parking area if they "live in" or leave late at night?
5. Who is the head receiving man in your club?
6. Who set up the "rounds" schedule for your watchman and who checks the "clock dials" when they are changed?
7. Where does a member put his clubs if he arrives after the locker room or pro shop is closed or before it opens?
8. Who has the "master" key to the lockers in your lockerroom?
9. Could you eliminate any of the entrances to your club property?
10. How many break-ins, robberies, and unsolvable thefts have you had in the past five years?

While these will not eliminate your problems, just thinking about them may give you a start at better club security.
