

# LINDIG

## Makes the Good Earth Better!

CL Models load directly into truck. The three capacity sizes: 75, 125 and over 200 cubic yards per hour, provide high-volume processing plants. Available with optional screener attachment.

L Models load shredded materials directly into trucks or direct to storage areas. Three sizes available (25, 40 or 60 cubic yard capacity). Rotary screener attachment available.

For high volume and high discharge level it's the Lindig "D". Use inside or out — two sizes available (20 or 15 cubic yards per hour). The Lindig "D" is tractor bucket fed. Shown with vibrating screener attachment.

For soil preparation it's LINDIG, the complete line with versatility for all types of jobs . . . big, little and in-between.

LINDIG equipment processes soil materials wet or dry: manure, peat moss, sludge cake, compost — cinders and rock salt, too.

All LINDIG Shredders have exclusive hammermill action — shred, aerate, mix and screen soil materials for healthier plant growth.

All around the world Lindig equipment is preferred for superior, economical processing. There is a LINDIG Model for you . . . Select One Today!

K-10 Shredder-Elevator and Screener. Hand Shovel Feed. Elevates soil materials (up to 6 ft.) for discharge to transport or stockpile.

"B" Models — hand feed — available in several sizes with capacity range of 3 to 25 cubic yards per hour. Screener attachment available. Removes debris from shredded materials.
