## KENTUCKY BLUEGRASS

Today, when knowledgeable agronomists talk about The Greening of America, they're talking about Baron Kentucky Bluegrass—discovered in Holland by the renowned plant breeder and seedsman, Barenbrug of Arnhem, The Netherlands, and now grown in America exclusively by Lofts Pedigreed Seed, Inc.

Baron Bluegrass germinates rapidly, grows slowly, and is adapted to mowing as low as 3/4" . . . making it ideal for golf courses, fine lawns, and industrial properties. Its broad blades interlock to make a crisp surface ideal for holding a golf ball on the fairway.

Baron Bluegrass is extremely winter hardy, maintains a fine winter color, and is highly disease resistant.

All Baron seed is CERTIFIED BLUE TAG, poa annua and bentgrass free.

U.S. PLANT PATENT #3186 has been issued by the federal government for Baron Kentucky Bluegrass.

**Dr. C. R. Skogley examines a strip of Baron sod.**

Dr. C. Richard Skogley, Professor of Agronomy, Plant and Soil Science at the University of Rhode Island, reports: "In America, Baron has perhaps been grown longer on the proving grounds at Rhode Island than at any other locale and has performed exceedingly well in our trials. It has consistently rated among the best. It resembles Merion in many respects but seems less subject to dollarspot and less demanding of fertilization. So far we have seen no stripe smut, and leafspot incidence has been very light."

Dr. Skogley has recently released from the University three new improved varieties of grasses—Jamestown Red Fescue, Exeter Colonial Bentgrass and Kingstown Velvet Bentgrass—which are now available from Lofts.

Exclusive North American Grower and Distributor:

**Lofts  
Pedigreed Seed, Inc.**

Bound Brook, N.J. 08805 / (201) 356-8700
