This golfing year

Man does not live by golf alone. But there are times when he feels he'd like to. Times like Spring, Summer and Fall in Nova Scotia.

To the rest of the world Nova Scotia is Canada's Ocean Playground. To our visiting and vacationing golfers Nova Scotia is a land of breathtaking natural beauty, laced with fresh waters and surrounded by the sea; where the golfing year begins with all the sparkle of early spring—a time of lilacs and apple blossoms, a growing of vivid green, fresh sea winds,

and cool clean air sweeping from rivers and lakes and streams.

Where the summer sun sets slowly on long warm days, with the ocean as our humidity moderator, so that when you've finished 18, you feel like 18 more. And where autumn often seems half-summer, continuing warm and colorful as if reluctant to signal the golfer the beginning of his season's end.

Nova Scotia confronts the golfer with an embarrassment of riches in choice and variety of courses. He can play a course so situated and designed that he may imagine himself on a sea-side links in Britain. He can turn inland and play a course winding through valleys and rolling through hills, that may remind him of the Poconos, or Spain, or parts of Gary Player's native land. And in the highlands of our Cape Breton Island, he'll play a course combining "seaside, valley, and mountainous terrain" that appears to have been transported from California's Big Sur country.

And this perhaps, you as a golfer, will find to be Nova Scotia's greatest appeal—the variety and diversity of our courses. You know the challenge and delights of playing *different* courses. In Nova Scotia, you can know the pleasures of discovery and the thrill of testing yourself against *different kinds* of courses.

But, as we said, we are Canada's Ocean Playground, rich with vacation delights, history and the restorative pleasures of life by the sea. Which means that members of the golfer's family can have the vacation time of their lives, while he's having the golfing time of his.

"No designer could have more varied or lavish material to work with"

So said the late, great, golf course architect Herbert Strong, after he created the famous Manoir Richelieu links at Murray Bay.

Carving the magnificent course out of the forest overlooking the St. Lawrence river, Strong called on his great skill and experience to "build this natural beauty into every possible feature of the play".

That he succeeded is history. The beauty and challenge of the Manoir Richelieu golf course is known across a continent. So is the superb cuisine and luxury of one of Canada's great resort hotels. Including an Olympic-size pool, trap and skeet shooting, tennis, fishing, badminton and riding. Family cottages up to six bedrooms. Regular accommodation from \$24 per person, including meals.

#### MIDWEST

##### MANITOBA

Manitoba, entrance to the vast Canadian prairie region, has many attractions for the golfing tourist: Churchill, the country's most northerly deep-sea port, where Eskimo life can be glimpsed, or whales watched at play; the 24-foot statue of Flintabatty Flonatin, designed by Al Capp, at Flin Flon; Fort Garry, the only stone fort of the fur-trade era still intact in North America; Winnipeg, a city surrounded by a "moat" to prevent flooding; and more than 80 golf courses.

Accommodations at the Falcon Motor Hotel are \$8.50 to \$16.50 per day.

**PHANTOM LAKE GC:** One mile south of Flin Flon, is built on muskeg and around rocky outcrops of the great Precambrian Shield. #### SASKATCHEWAN

Land of the "big sky," Saskatchewan is the heart of Canada's wheat-growing industry. The province is intimately linked with the exploits of the Northwest Mounted Police, or "Mounties," and many museums trace the history of the force. Buffalo graze in a fenced pasture beside the highway in the Wild Animal Park at Moose Jaw.

**WASKESIEU LAKE GC:** (pronounced Was-ki-soo): On the east shore of Waskesieu Lake in Prince Albert National Park. Lies 60 miles north of Prince Albert, via Highway 2. Most visitors are impressed by the beauty of this scenic 6,059-yard (par-70) course. The 625-yard eighth is known as Mae West because of the identical twin contoured hills guarding the entrance to the green.

Early-morning players are often startled to see deer or moose sharing the fairway with them. Green fees: \$4 per day or \$20 per week. Clubs and hand carts for rent.

Accommodations in motels and cabins range from \$6 to \$15. There are also campgrounds, with sites for 120 trailers and 60 tents. All sports activities available. Entrance to the park is 25 cents per day or \$1 for the season.

#### PACIFIC REGION ALBERTA

The Calgary Stampede, called "the greatest outdoor show on earth"; snowmobile rides on the vast Columbia Icefields; a breathtaking cable car ride up Mount Norquay; Banff Indian Days Celebration; the view from the top of the 626-foot Calgary Tower in Calgary;

the weird rock formations of the Badlands; the Dinosaur Trail; Klondike Days in Edmonton; the huge buffalo herd in Elk Island National Park; the magnificence of the Rockies. This is Alberta . . . plus, of course, the incomparable resorts at Banff and Jasper, and their superb golf courses.

**BANFF SPRINGS HOTEL AND GC:** 80 miles from Calgary, is located at the junction of the Bow and the Spray Rivers, in a circle of mountains. Easily reached by the Trans-Canada Highway; by bus, train, or by air from Calgary. The golf course, almost a mile above sea level, is 6,729 yards of scenic thrills and golf challenges. Towering mountains around the course often cause golfers to underestimate distances. The seventh hole is carved from the face of Mount Rundle, and tons of rock were quarried for this 513-yard par-five called "Gibraltar." There is much wildlife on the course. Banff National Park is a game preserve, and animals are fearless and quite tame. Green fees: \$7.50; \$8 weekends.

Accommodation rates at the 600-room hotel run from \$25 for single occupancy, and \$30 for double, on the European Plan. Season is June to September. Facilities include swimming in fresh water pools maintained at 74 to 78 degrees.

**JASPER PARK LODGE AND GC:** Is located 177 miles north of Banff and is easily reached by road, train, bus or air from Edmonton. It is also accessible by the spectacular Icefield Highway. Jasper is surrounded by mountain ranges, and the 6,455-yard golf course was hewn out of the slopes of the Rockies. In 1914, Sir Arthur Conan Doyle, creator of Sherlock Holmes, tried his hand at creating a golf course here, but Stanley Thompson planned and supervised the construction of the course in 1923-24. Train-loads of soil were imported, as the rock and bush of the area supported very little grass. Each bunker has a definite design—a rose, a footprint, an artist's palette. The water supply for the fairways, tees and greens is obtained by means of a gravity system which also supplies the water for the lodge. At the ninth hole you drive straight for the 9,000-foot pinnacle of Pyramid Mountain. The green and bunkers of the ninth were originally shaped in the form of a huge, recumbent female, but objections

were raised on the grounds that this design would put male golfers off their approaches, so the contours have been flattened out. But the hole retains its name—Cleopatra. Wild animals frequent the course. A bull moose once took over the water hole on the 10th fairway, and golfers had to shoot over him for two months. Sometimes bears squat on the benches and watch golfers tee off.

The course is the setting for the annual Totem Pole Tournament for amateurs, begun in 1929. The trophy stands more than two feet high and the pole itself is cast in silver. Bing Crosby won the tourney in 1947. Green fees: \$8; \$10 weekends.

Accommodation is from \$27.50, shared occupancy. Facilities include tennis, swimming, riding, hiking, boating, nightly entertainment.

**WATERTON LAKES NATIONAL PARK GC:** About one mile from the Waterton Park Townsite, situated in the extreme southwestern portion of Alberta, 160 miles from Calgary via Highways 2, 3 and 6; and 72 miles southwest of Lethbridge on Highway 5. In summer, buses run daily from these cities to the park, and Lethbridge is served by Air Canada. The par-71 course is 6,103 yards long and very hilly. The course is well-treed and provides beautiful vistas with the Rockies as background. Green fees: \$4; \$20 for weekly ticket. Clubs and hand carts available for rental. Electric cars are \$8 per round. Season: May 15th to September 30th.

The townsite at the northern end of Upper Waterton Lake has recreational facilities, and at the edge of town is Cameron Falls and an enclosure containing a buffalo herd. Saddle horses available for exploring the mountainous terrain. The lake has boat launch ramps and docking facilities.

The park has 375 campsites at four locations, the main one in the townsite. Costs are \$1.50 for unserviced sites and \$2.50 for sites with water. There are good accommodations at the Kootenai Motel, Bayshore Motel, Crandell Lodge Motel, Emerald Bay Motel, Kilmorey Motor Lodge, Lakeshore Chalets, Ponderosa Motel, Stanley Hotel and Cottages, Waterton Auto Bungalows and Wildflower Motel. Rates run from \$5 single to \$30 per day (suite) for four. The season gen-

erally runs from May 1st to Oct. 1st.

There are many other good courses throughout the province, with a large number in the Calgary and Edmonton areas.

#### BRITISH COLUMBIA

Strange as it may seem, there is a place in Canada where golf is played all year. It's beautiful British Columbia, where some of the country's finest courses rarely see snow, and the golfer has a 12-month season.

Here is golf of every description—from the courses on Vancouver Island to the forested layouts of the Vancouver area itself (Capilano, Marine Drive, Point Grey), to Harrison Hot Springs. And all around is the towering grandeur of the Canadian Rockies.

**THE HARRISON HOTEL:** Now owned by the House of Seagram, is located at Harrison Hot Springs, 75 miles east of Vancouver via Trans-Canada Highway 401 (BC No. 1) and Highway 9. It lies on a 700-acre site overlooking the 46-mile long, glacier-filled Lake Harrison. The nine-hole golf course is two miles from the hotel. Transportation available by prior arrangement. The 3,425-yard layout is comparatively flat, but with tricky greens. Hand carts rent at 75 cents; electric cars at \$4.50 for nine holes and \$5 for 18. Green fees: \$3 for nine, and \$5 for 18 holes.

With 285 rooms, hotel offers a wide variety of accommodations. A mid-week package includes three nights, arriving Sunday, Monday or Tuesday, and one round of golf for \$55 per person, double occupancy (\$70 single). A honeymoon plan provides three nights and one round for \$100. Both plans include three breakfasts and two dinners.

**RADIUM HOT SPRINGS LODGE AND GC:** 3,400 feet above sea level, is 90 miles south of Cranbrook via Highway 93-95, and 85 miles southwest of Banff via Highways 1 and 93. The golf course overlooks the spectacular Columbia Valley and is 3½ miles southwest of the Hot Springs. It is a 2,800-yard, nine-hole layout. The longest hole is 525 yards. The season runs from Easter until late in the fall. Green fees: \$2.50 for nine holes, \$4 for the day, or \$17 for a week. Hand carts rent for 50 cents for nine holes, electric cars for \$4 for nine and \$7 for 18. Club rentals available. Rates (June 1-Sept. 30) are \$17-\$22 for two per day, and \$1.50-\$2.50 per day for

each additional person. Single rate is one dollar less.

**QUALICUM BEACH GC:** On Vancouver Island, 28 miles north of Nanaimo via Highway 19, and just across the street from the George Inn. It is reached from the mainland by two ferryboats from Vancouver to Nanaimo. There is train and bus service from Victoria on the southern tip of the island. The seaside nine-hole golf course is 2,760 yards long. Green fees: \$2.50 for nine, \$3.50 for 18 and \$1.50 for juniors. Hand carts rent for 50 cents per round and clubs for \$1.50; electric cars cost \$4 for nine and \$6 for 18.

The English Tudor-style George Inn overlooks the golf course and the sea and is noted for its excellent cuisine. It offers Finnish sauna baths, heated indoor pool opening onto a landscaped patio, and other facilities.

**GLEN MEADOWS G & CC:** 18 miles from Victoria on Vancouver Island, is reached by Washington State Ferries into Sydney, or B.C. Ferries that run every hour in summer. The course is a 7,014-yarder (par-72). It has over 40

traps and five water hazards. There is a variety of accommodations in nearby hotels. Attractions in the area include undersea gardens and Madame Tussaud's Waxworks.

**VICTORIA GC:** Jutting into Oak Bay, is the oldest in the province (1894). It is a par-69, at 5,950 yards, and exposes players to the challenging winds that gust across the Strait of Juan de Fuca. It is four miles from the center of Victoria. Green fees: \$7; \$10 weekends.

There are other courses in the Vancouver and Victoria areas.

#### OTHER AREAS

There are many golf courses in more remote area of Canada that are well worth a visit by the ardent player. Newfoundland and Labrador have very fine courses plus other attractions unique to their parts of the country.

In Yellowknife, in the Northwest Territories, there is the Midnight Golf Tournament in which participants play the first nine before midnight, partake of refreshments until 2 A.M. and then play the second nine—finishing about 6 or 7 A.M. □
