

Fylking - outstanding as its name!

Internationally tested over 12 years, Fylking has proven to be exceptional — exceptional as a mixer in any lawn seed mixture, exceptional in producing a thick turf. The dense rhizomatous root system knits itself together so weeds cannot penetrate. Low-growing, abundant tillering, fine textured Fylking has greater disease resistance and drought resistance. It greens earlier, is greener in summer, stays green longer into fall. Can be cut low as $\frac{3}{4}$ inch (even $\frac{1}{2}$ inch) and thrive with less watering. Check tests shown below:

FYLKING KENTUCKY BLUEGRASS

U.S. Plant Patent No. 2887

1. Comparison of Fylking (right) with another elite bluegrass plant.

2. Cross section shows thick, luxuriant turf, fine leaf texture and brilliant green.
