

Meet
THE PRO-LINE MEN
In Minneapolis!

● All Pro teams need to have a strong line up front. Dependable men who can perform their assignment when the action in the "trenches" gets rough. Standard's front line is the best in the business because of experience, performance, and desire.

It may be cold in Minneapolis and the golf courses are under a coat of wet, cold snow. But at Standard, we think of golf 12 months of the year. So we line up ready to tackle any problem you might toss our way.

In the front is our chief linebacker . . . Robert Voorhees, (#66) President of Standard. Reading left to right is Steve Burrell, (#72); Bob (Chief) Waseskuk, (#77); John Christiansen, (#67) and M. K. Voorhees, (#16).

These pros will be looking for you at the (GCSAA) show in Minneapolis in February. Stop by our booth 500 for complete information. Our crew is ready to tackle any problem you might have even without shoulder pads or helmets!

You Could Drop a Bundle Figuring Only Cost Per Lb. When Buying Grass Seed

What about coverage? How many potential plants do you buy in a pound of seed?

Compare seeding rates (which gives you the potential number of plants) and divide by the price per pound. That gives you the true cost of a pound of seed.

That's where Highland Colonial Bentgrass shines. With 8 million seeds per pound its seeding rate is very low. Couple this with the fact that Highland is one of the most economical of the fine-bladed grasses and you'll see it offers the bargain of a lifetime.

Check it out. Compare the seeding rate of the fescues, bluegrass and ryegrass with their cost per pound. Find out how much you're really paying per 1,000 square feet and you'll take another look at Highland. The fine-leaved beauty that's truly a bargain.

Circle 108 on free information card

courses being too long, too tough and too expensive to maintain. It did not make good sense to the golfers who had to pay the bills to have courses designed primarily for testing the championship capabilities of tournament specialists who were not paying for the courses.

When the reaction set in and American golfers began to think about an entertaining, testing and beautiful golf hole, the industry began to see that it had many good architects who created some classic results although not often given ideal terrain to work with.

Educational arguments have been developed about the features of a new course designed by Rees Jones, one of the gifted sons of Robert Trent Jones, and the famed father's design of the many courses. George Fazio presented some fascinating courses, among them the Butler National in suburban Chicago, where the Western Open will be played for several years. He is making a case for the good player as an architect and he has company in his class.

Keep Your Course Green

With Annual Ryegrass

Overseed with Annual Ryegrass and your course will be green again in a matter of days. Just the ticket for fairways . . . tees . . . and putting surfaces.

Plan on a bonus in addition to winter beauty. Ryegrass provides protection for the dormant native grass plants which might otherwise be ground out of existence in hard-use areas.

Ryegrass provides the protection to help your native grasses to snap back more rapidly when the warm weather returns.

Sow Ryegrass under unfavorable wet or dry conditions, and you'll see it germinate in a matter of 5 to 14 days, depending on conditions.

PERFECT PICKER

**The Revolutionary NEW
Golf Ball Retriever !**

Pictured:
Three-gang Model

Available in Five-Gang, Three-Gang, Walker & Lake-Picker Models

Labor Saving

Pushed by an ordinary golf cart at 8 mph, each gang can retrieve 20 balls at a time. Gangs on similar units are limited to 12.

Ball Saving

Tractor-hauled units push balls into mud, making recovery & cleaning difficult. Balls are sometimes damaged. Not with PERFECT PICKER!

Maintenance Saving

Detachable in seconds, one-gang repair doesn't halt operation. Remaining gangs can keep working. Low maintenance.

Fuel Saving

Light-weight PERFECT PICKER picks clean in fewer sweeps because of its unique, flexible design. Saves fuel!

Safe To Use

The unit rides on smooth plastic disks; will not damage sprinkler heads, dig up turf, or ruin the plastic liners in lakes.

Ball Recovery

Reduce your ball inventory. PERFECT PICKER retrieves balls from uneven ground, next to fences, even from lakes.

CELEBRATING the Bicentennial with a flair is the idea behind a new red, white and blue golf flag from Lewis Line. Seven-feet in height, a white fiberglass pole features three color striping. The colorful flag has red and blue stars on a white field with USA/200 emblazoned on it. Flag material is nylon.

Circle 702 on free information card

A FULL line of club repair products comes from Golf Day and the Illinois firm is announcing a new Super Stripper that will remove old finishes faster. Golf Day Super Stains are also available in a number of colors including black, cherry red, mahogany and walnut.

Circle 703 on free information card

BUILT to take the every day punishment a country club golfer can dish out, Fore carpentering by Crown Industries can handle the gouging and twisting of spikes without showing wear. Constructed of

hardwearing 100 percent continuous filament olefin pile on a reinforced non-stretch vinyl back, Fore is stain-resistant and easy to clean. Eight colors are available, ranging from red to gold.

Circle 704 on free information card

PRODUCTIVITY and profitability go hand-in-hand in the T.C.A. Aerator from Dedoes. Providing one-day course aeration, the T.C.A. unit can aerate any tee or green in 15 minutes. Two units are available, one for tees and greens and one for fairways. Able to operate in either forward or reverse, the fairway model can remove 180 clean plugs per revolution.

Circle 705 on free information card

BOOSTING your soft goods sales is a snap with Grand Paws athletic hose from Clossco. Seven different

styles are available, five men's and two women's. Retail prices for the hose range between \$1.50 to \$2 per pair. Styling varies from solid white to white with multi-colored stripes. The hose are a blend of nylon and Orlon®.

Circle 706 on free information card

WANT a sauna, but don't want to bother with the added cost of installation, Helo-MacLevy has a new "Do-It-Yourself" pre-cut room kit on the market. Just supply Helo-MacLevy with the room dimensions and they furnish all material, pre-cut, along with illustrated installation instructions.

Circle 707 on free information card

INCORPORATING a design feature that helps the golfer point exactly toward the cup, the Win Putter from Jonal could be a big mover in the pro shop. Investment cast of stainless steel and silicone bronze, the putter is available in either right or left hand models.

Circle 708 on free information card

EXTENDING vehicle battery charges to new highs is the job of the

"Big Forty" charger from Lester Electrical. On one charge, the unit can charge a 36 volt battery, up to 300 amp-hour types, to ¾ capacity in less than five hours. After the peak charge, the unit rate automatically tapers down to three amps, preventing overheating and excessive gassing. Use for both utility vehicles and golf cars is ideal.

Circle 709 in free information card

INCREASE shop hat sales with new Poplin Roll-Up hats from Mayflower-Medalist. Imported from abroad, the headwear has a suggested retail of \$2.50 each.

Circle 710 on free information card

WEIGHING less than 25 pounds and with a retail price of around \$100, the Caddyloc motorized golf bag carrier is an innovation from Electric Sports Products. The unit has fingertip control and can make any grade easily.

Circle 711 on free information card

EMPTYING holding tanks is a thing of the past with the Envir-o-Pak comfort station by Modular Conceptual Systems. Through a biological process within specially designed toilets, the system needs no domestic water service or need of flush water removal.

Circle 712 on free information card

AFTER several years of testing and research, AMF Ben Hogan has finally entered the durable golf ball market with its new Leader® model. The ball has the distance, trajectory and consistency of the tour-favorite Apex ball. The cover has a unique blend of thermoplastic resins, developed to give the product a good sounding, great feeling cover.

Circle 713 on free information card

COMPACT and portable, the Port-A-Rake from Al Sal Corporation provides the considerate golfer the ability to maintain sandtraps when course rakes are misplaced or taken. Made of rigid polypropylene, the 8-inch rake fits into its own small package when not in use.

Circle 714 on free information card

FAIRWAYS and tees can get better spraying quality with two, new fiberglass units from Myers. Both models are easy to mount on the back of all utility vehicles. Lightweight and easy to handle, the sprayers include stainless steel booms with dripless nozzles, spray guns, anchor mounting kits and trailer kits.

Circle 715 on free information card

REDUCING service time and cost, Scotsman introduces an ice machine with complete front service access. The AC30 Cuber has all its major operating components located in a convenient slide-out chassis located behind a front panel. Daily cube production is up to 265 pounds.

Circle 716 on free information card

FITTING the full range of irons in tip diameter and flex uniformity, Babcock & Wilcox introduces three new graphite shafts for irons. The first fits 2-4, the second 5-7 and the third 8-PW. The biggest plus of the shaft is its torque resistance.
