## Lester-MATIC "BIG FORTY" 40-AMP CHARGER

All over the country, users of big-battery electric vehicles are turning to Lester-MATIC chargers for fast, dependable charging. The all-new Lester-MATIC "BIG FORTY" offers a full 40-amp start rate—really pours the amp-hours into your batteries during those important early hours of charging. Normally, high capacity batteries are charged to 3/4 capacity in only 4 hours. After the peak charge, the rate automatically tapers down to 3-amperes, preventing overheating and excessive gassing, and resulting in excellent equalization of cells with low water consumption.

Both golf car and industrial users in northern areas have found the "BIG FORTY" to be a top cold-weather performer—extending vehicle hours and cutting time on-charge. Lester's new heavy-duty "BIG FORTY" will keep your big batteries in peak condition over a maximum life period.

All Lester chargers feature solid-state circuitry for years of trouble-free performance. A unique flux oscillator circuit compensates for changes in line voltage. Lester chargers are easy to use by untrained personnel—no taps or rate controls to set. Over 200,000 chargers in daily use have proven the reliability of the Lester-MATIC. Specify Lester for your next electric vehicle charger.

Specify the Lester-MATIC "BIG FORTY" with your car order, or special order from your distributor.

Paul Orednick is national sales manager for the food service of **Plastics, Inc.**

# Here's the machine that turns one man into a whole crew.

There are a couple of ways to get your greens trimmed just right in a short time.

You can send out a crew with a bunch of hand mowers.

Or you can send out only one man and a Jacobsen Greens King and cut 18 greens in about four short hours.

Your Jacobsen Distributors, like Fuller Tresca, Tresca Industries, Inc. in Jacksonville, Florida, can give you some pretty interesting facts about the machine that does it all.

We'll show you how easily the

driver can move levers on the control panel so the mowing units can go to work either singly, or in any combination.

We'll not only show you the comfortable seat, we'll let you sit in it and adjust it to your own body. (This lets the driver concentrate on the greens instead of his back.)

When you hear the engine, you'll wonder how 14 horsepower can be so quiet.

Other facts. The transmission has four speeds. Three forward and one reverse. And the spe-

cially designed steering wheel makes a piece of cake out of tight turns.

Of course, we always have parts in stock. And trained mechanics on staff if you need them.

Better check out the Greens King with your Jacobsen Distributor. It will work hard and fast to give you smooth and beautiful greens. Which will make you feel good.

And a crew of only one will make you feel even better.

## Your Jacobsen Distributors.

Great products deserve great service.

For the name of the distributor near you write: Jacobsen Turf Distributor Directory, 1721 Packard Avenue, Racine, Wisconsin 53403
