WHO WILL TEACH THE TEACHERS?

Meet Dr. Fred V. Grau

This man became a turf specialist through education, hard work and perseverance. His many years of learning paid off in development of turf grasses such as Meyer Zoysia, Merion Bluegrass, Penngift Crown Vetch.

But, what about our new group of research people? Inflation, higher costs of education, make it more difficult for promising turf grass researchers to complete their graduate education.

That is why Dr. Grau is dedicating his time to the MITF. The MITF is dedicated to the training of future researchers and teachers throughout the world.

You can help . . . send your tax exempt contribution to:

WITH A lasting feel, the Tacki-Mac grip from Exacta has the look of leather, but offers a better surface and more consistent shape, according to the manufacturer. One-piece and injection molded, the grips will not discolor hands or gloves. Impervious to any type of absorption, just a wipe of a damp cloth takes off dirt and perspiration.
