## Popular golf garments are back for 1977

Two of the best-selling models in the AMF Ben Hogan Co. line of men's golf apparel, sold exclusively through golf pro shops, have been retained for 1977. Nomad slacks are made of a fine-gauge, texturized woven polyester. Full-cut for freedom of movement, the beltless slacks have a 4-inch extension and hook closure. They come in even sizes 30-44. Colors are chocolate, camel, and canary on white, plus navy and light blue on white.

The solid-color shirts are made of Durene cotton lisle or 65 percent Dacron polyester with 35 percent fine Pima cotton. Durene shirts come in white, light blue, navy, and maize; polyester/cotton shirts are offered in 12 colors. The shirt shown has a tailored collar, four-button top-center placket, and banded pocket. Also available are shirts with full-fashioned knit collar and four-button Continental placket.

## Powered five-gang mower cuts trimming time

The Power Quint, a power-driven five-gang reel mower, eliminates the necessity for complicated, power-robbing hydraulic systems. Since it provides its own power source, almost any tractor with any (or no) power takeoff can pull this mower. The five free-floating reels easily follow ground contours and cut an 11½ foot swath without skipping or scalping in tight turns, the inside reels rotate at the same speed as the outside reels. The powered cutting units reach out over traps and up to obstructions to reduce trimming time and labor. The mower wings fold to a 68-inch width for easy transporting. National Mower Co. makes the Power Quint.

## Guest checks offer free color artwork

Restaurant and bar guest checks with any of 22 full-color designs are available from Burroughs Corp. with no additional art or color separation charges. Or the firm will reproduce your own custom design for a low one-time charge. Checks are prenumbered, come in all sizes and configurations, and can be ordered with one or more plies.

## Hand-held dispenser proportions eight drinks

Club bartenders can dispense eight liquors and/or secondary ingredients with one hand, using the Multi-Drink Processor made by Berg Co. The hand unit's eight buttons meter portions pre-set at from 1/3 to 6 ounces; there is never any deviation in volume or ingredients. And each drink sold is recorded by brand and size on built-in digital counters.

## Cart or tractor lift

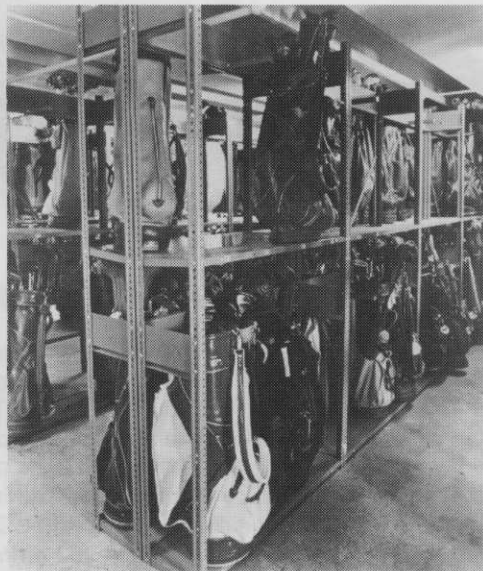

Lift-Quik model 490 provides easy work levels for tractors, and golf or maintenance carts weighing up to 1,400 pounds. Made of heavy-gage pipe, the lift has steel track rails that adjust from 24 to 40 inches apart. Its powerful winch raises equipment as high as 33½ inches and lowers it to floor level safely and easily. F. G. Nolan and Son makes the Lift-Quik.

## Chemical-resistant tanks

Super Tanks, a line of fiberglass tanks for chemical storage and vegetation sprayers, are offered by Hemco Corp. in sizes from 60 to 500 gallons. Because the tanks are made in halves which are then bonded together, the bottom half can be built heavier to withstand the extra stresses of saddle mounting. The color and a calibrated fluid gauge are molded into the tanks.

## Golf bag rack

Shelving system from Penco Products Inc. saves locker room space by storing golf bags in upright position in two tiers. Each section is 87 inches high by 12 inches deep by 42 inches wide and is an independent, self-supporting unit. Sections join back-to-back or end-to-end. The upper shelf is angled slightly to hold bags securely in place, and a metal divider provides back support for the bags. All components are steel, finished in baked enamel; standard color is gray, but others are available.

## Food refrigeration

A new line of refrigeration units, called Refrig-O-Pak, is made by Recon Refrigeration Corp. especially for foodservice operations. Each is custom designed using off-the-shelf components and assemblies, and each is self contained — including compressor and condenser, all operating controls, electrical control panel, and remote ice machine condenser. Weatherproof, the units may be installed on rooftops or outside pads.

## Sign of a pro

Changeable letter boards hung in the pro shop remind customers of special merchandise sales as well as coming events and regular rates for services. Around the clubhouse, they can list membership rosters, handicaps, and activities. Bulletin & Directory Board Mfg. Co. offers boards from 16 by 20 inches to 4 by 8 feet, with or without glass cases. Style OF46 (shown) is 20 by 30 inches, with 1- and 1½-inch letters. Frame is anodized aluminum; board is black nonfading vinyl. Green, blue, red, and brown boards are also offered.

## Toughness + playability

A new golf ball, the Surlyn-cover Dot Diamond recently introduced by Spalding, provides playability and distance without sacrificing durability. It has a highly energized solid center for distance, windings formulated to give playability, and an injection-molded cover and patented centerless grinding for roundness and a wobble-free trajectory.
