

Having genuine Jacobsen parts in stock makes sense.

Having 3,200 different types of parts makes news.

The average Jacobsen distributor carries about 3,200 different kinds of genuine Jacobsen replacement parts in stock at all times.

That's one heck of a lot of parts. But when a piece of equipment goes down, you want it back in action fast. And with genuine parts because they're made to fit and work perfectly. So a big selection is important.

If you do a lot of your own equipment maintenance and repair, this is just one reason to go with Jacobsen. Here's another. Your Jacobsen distributor can

even help you set up your own inventory of most likely used parts. Which can speed up repairs even more.

If you don't do much maintenance yourself, it's good to know your Jacobsen distributor has plenty of parts, plus trained mechanics who specialize in servicing Jacobsen equipment.

Either way, you're ahead of the game with Jacobsen. Good equipment to start with. A distributor who stands behind your equipment

with a large supply of genuine parts. And the Jacobsen factory squarely behind the distributor. Just so you always get the same fine performance you expect with equipment that has the name Jacobsen on it.

It isn't hard to find a good argument for going with Jacobsen. There are 3,200 of them in the parts department alone.

Take a look at leadership.
