

# Flying High and proud of it!

## for 3 good reasons

**#1 The new Bishop Flag.** It flies beautifully, silently . . . will not shrink, resists fraying and fading. The flag itself is double-stitched between front and rear faces of the injection-molded plastic swivel. Available in 4 bright colors with 10 different background/numeral combinations possible.

**#2 Translucent Flagpoles.** Picks up light for easy visibility. It has quickly become the favorite choice for major golf tournaments because it can be seen from over 300 yards out. Chamfered steel bottom ferrule seats securely in matching cup socket . . . pole will not walk out of cup in the gustiest winds. Nontranslucent poles available, white or stripe combinations.

**#3 Heavy-duty Cup.** Exclusive 34° chamfered seat locks matching steel ferrule of pole in place . . . holds flagpole straight, yet allows easy vertical removal. Extra thick, high-impact thermo-plastic sidewalls provide strength. Cup stays straight in hole.
