

Banvel®...specialist herbicides

They make your work a legend!

Banvel® herbicides are broadleaf weed "specialists." Each is designed to do a special job for the conditions at your course. One of the unique features of Banvel® herbicide is its 2-way translocation; it penetrates leaves and travels down to the roots and/or it is absorbed by the

roots and travels up to the leaves. This 'upstairs/downstairs' action gives excellent control of many problem weeds. Examine the whole line of Banvel® herbicides. We'll give you the highlights here, but your Velsicol Turf Distributor can provide complete information.

BANVEL® 4S Herbicide

With one application this potent product controls hard-to-kill weeds; yet it's safe on Bent grass. It works in warm or cool, wet or dry weather and stores without potency loss.

- **Highly Effective**
- **Economical in Cost Per Acre**
- **Unique Translocation Property**
- **Control a Wide Variety of Problem Weeds**
- **Long Shelf Life**
- **Work in Warm or Cool, Wet or Dry**

BANVEL® + 2,4-D

One application provides excellent control at low cost. It's pre-mixed for best results: Banvel® herbicide for tough weeds, 2,4-D for broad spectrum control. At 2-3 pints per acre it controls more than 24 common turf weeds, including dandelions, poison ivy, chickweed and clover. Stores well, too.

Learn how to identify tree diseases in the June issue to guard the valuable foliage on your course. Golf car paths are a perennial headache. We will feature what Superintendents are doing to keep cars on them.

Groundsmaster 72.[®]

We engineered this Professional to mow up to 3.7 acres an hour without losing its cool.

Power to spare from a water cooled, 4 cylinder engine.

Clean, uncluttered operator station for maximum visibility.

Hydrostatic drive for smooth, one pedal control of forward/reverse.

An optional rear discharge cutting unit which directs clippings down between the wheels is now available.

Donaldson air cleaner for longer engine life.

Deck offset 18" for mowing under limbs, trimming near fences, trees.

If you're responsible for large areas of turf, you have grounds to buy our Groundsmaster 72[®].

In fact, Toro engineered this rugged 72" rotary specifically for your needs.

We built-in plenty of power for all types of cutting conditions.

We made its engine water cooled to give you longer service life.

We designed it to trim close to fences, walls, buildings and trees.

And we added versatility. With optional accessories including a 48" snowthrower, V-plow, rotary broom, roll over protection

system (ROPS), and cab with ROPS.

Want a demonstration of the Groundsmaster 72[®]? Or our Groundsmaster 52[®] that mows like a garden tractor and trims close like a walk mower? Call your Toro distributor. Or, mail the coupon.

For 10
full years,

the South's
most
successful
blends.

**Medalist[®]
Brand
Winter
Overseeding
Blends.**

Northrup King introduced them 10 years ago and by 1973 they were keeping greens and tees green and healthy all winter long at over 250 Southern courses. Today, Medalist blends are still used at 90 percent of those courses. And another 215 Southern courses have discovered Medalist blends, too.

That's success.

All those golf courses use Medalist blends for plenty of hard-nosed reasons. Medalist blends establish rapidly. They mow beautifully. Their transition characteristics are excellent. And they're exceptionally reliable.

The latest Medalist blend is Medalist 6 and it's a standout. That's why it will help keep more and more greens in top shape all winter long. Ask your Northrup King man how to make your course even better. He'll tell you about all the Medalist blends, including Medalist 6.

And he'll be more than happy to pour you some.

For more information, write:

It's obvious... you can depend on a National

It's easy to check our best features. We don't cover 'em with a shiny shroud. **What you see is what you get...** a completely functional and easily maintainable machine built with a minimum number of components. National's 84-inch Triplex offers the same superb performance on hillsides or level ground. Three, power driven, free-floating reels follow ground contour and cut without skip or scalp. Reels adjust down to fixed bed bars providing for more rigid and longer lasting mowing units. Bed knives have turned up lips for extra wear... a feature we introduced as early as 1925. National's no-nonsense design makes normal service faster than any mower on today's market.

Check out the economies of National's ugly beauties. We've been adding nothing but quality since 1919... it's obvious!

**Power
Quine**

Deliberately designed to provide its own power source which allows unit to be pulled by almost any size tractor with or without PTO. Five, free-floating, powered reels cut an 11½ foot swath. Wings fold to 68".

68" Triplex

Low center of gravity and wide track provide great maneuverability. Mows a 68-inch swath at speeds up to 4 mph... that's half an acre in 15 minutes. Wings fold to 37½".
