

**This is quality  
Sulphur Coated Urea  
from C-I-L.  
It is the prime  
ingredient in  
outstanding blended  
fertilizers from  
major manufacturers  
from coast-to-coast.**

You can recognize it  
by how it looks  
and how it grows grass.

**Try it  
and let your grass be the judge.**

Quality S.C.U. (32-0-0) from C-I-L  
is a proven source of  
slow release nitrogen, formulated  
to feed turf the way it should  
be fed...daily.

## This month's editorial

This month will continue our look at seed as we give an actual Seed Harvest Report. Articles on Budgeting and Planning will make the task easier as you plan for the next year. Budget Visuals are an important tool for making the board aware of your needs, and we will explain how to make them. GOLF BUSINESS South will feature Winterkill: What is it and why does it happen? Anticipating Spring Transition will give information for immediate preparations to minimize such factors as winterkill, and be ready for the Spring golf season.

## This month's editorial

What futuristic innovations will the golf car industry present for the new year? Be sure and read the 1982 Golf Car Guide. All the specifications for choosing which battery to put in your golf cars will be included in the 1982 Guide to Golf Car Batteries. An important part of every piece of equipment are the wheels it rolls on. We will feature tires this month, in an article that will allow you to make purchase decisions with authority. We will tell you how to read weather maps and utilize forecasts in making maintenance decisions in Mother Nature and Weather Maps.

**On the greens, the fairways...all around the links,  
inside the clubhouse and under all the sinks**

**DURSBAN 2E is the one insecticide that works.** DURSBAN\* 2E Insecticide is ideal for broad spectrum, multi-purpose insect control everywhere around the club. Outside, DURSBAN 2E gives you unsurpassed control of turf pests like chinch bugs, sod webworms and cutworms, plus ticks, chiggers and mosquitoes. It even wipes out bagworms and many other ornamental plant pests. In-

side, it cleans up the toughest roach problems, and keeps working to rid your buildings and restaurant areas of insect pests. Ask your supplier about the one insecticide that really works, DURSBAN 2E. Just be sure to follow all the directions and precautions on the label. Agricultural Products Department, Midland, Michigan 48640.

### This month's editorial

After this month, you will have the 1982 GOLF BUSINESS Calendar of Events to look forward to. We will feature Highlights of the 1982 GCSAA Conference and Show. 1980/1981 Comparison will show how golf and golf courses have progressed through the past two years and offer insights into what the future might hold. GOLF BUSINESS South will have a comparison of Warm Season Turfgrasses, Species and Varieties. We will feature at least twelve ways to Have Strong Roots and will wrap up the year with an identification series on Winter Weeds in the South.
