

Lakeshore sells Lescosan and LESCO 100% sulfur-coated fertilizer

Lakeshore sells Lescosan and LESCO 100% Sulfur-Coated Urea and Fertilizers, but our products are their own best salesmen.

**"Call me today on one of my toll free lines
Nationwide (800) 321-5325
In Ohio (800) 362-7413**

LESCO Sulfur-Coated Urea and 100% Sulfur-Coated Fertilizers provide the perfect ingredients for denser, greener turf. The sulfur coating allows even release of nutrients over a 120-day period with no surge growth. LESCO's unique product allows for safe, efficient and economical fertilization of turf in all areas of the country.

Lescosan (Betasan*) is the most effective pre-emergence crabgrass control on the market. The proof is not on paper — it's in the grass. Lescosan provides full-season control and is very effective on many ornamentals and ground covers.

Lakeshore also carries a complete line of golf course accessories — flags, poles, cups, anything you need — and turf chemicals and grass seed. As a supplier of these necessities and of LESCO Sulfur-coated Fertilizer and the most effective crab grass control on the market, we have a special interest in golf course managers. The family of fine LESCO Products mean quality at affordable prices for you.

Call me and I'll have one of our golf course specialists give you all the details and work out a program specifically tailored to your needs.

(*Betasan-Registered trademark of the Stauffer Chemical Company)

LO-BLO, the Air-Broom®

TAKES CARE OF TOUGH CLEAN-UP JOBS IN A BREEZE

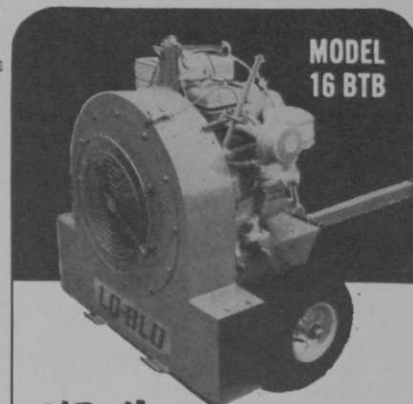

saving time, labor, money, muscle . . .
EVERY SEASON OF THE YEAR!

LO-BLO is made in sizes for every need . . . 3, 8, 14 and 45 H.P. models in our line now.

BLOWS debris, leaves, litter to one spot for pickup. Sweeps under cars in parking lots. Cleans outdoor theaters, ball parks. Dusts off, dries surface ahead of road repair crews. Winter specialty: blows dry snow off skating ponds.

MODEL 14KPT SELF PROPELLED

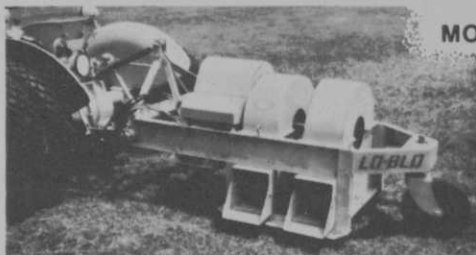

ATTACHMENTS: 10 foot Hose (6" dia.) aims blast into tight corners. Forward Deflector for curbing or walls; Highway Joint Deflector; Blo-Wash Unit.

MODEL 16 BTB

NEW! 16 Horsepower PULL-ALONG BLOWER BLASTS EITHER ←WAY→

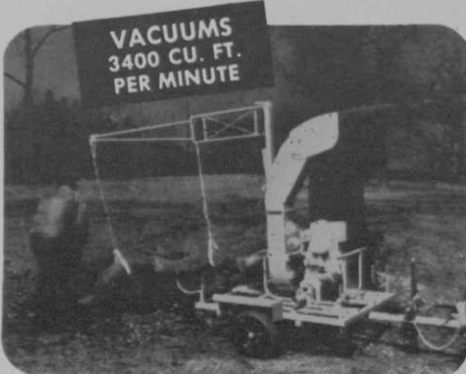

IDEAL for pulling behind work cart, pick-up truck, Jeep or tractor. Remote switching of air blast, directing it to left or right. Remote throttle controls 16 H.P. cast iron Briggs and Stratton engine. Blows 5700 cu. ft. of air per minute. Air speed 180 m.p.h.

MODEL 30 PTO

mounted on, powered by tractor with a live PTO drive (45 H.P. up) Four fans can blow to left or right, 125 to 150 m.p.h. Hydraulic-controlled from operator's seat. Sweeps forested as well as open areas. Blow-dries wet lawns.

MIGHT-VAC 'BIG JOB' LOADER-ON-TRAILER

VACUUMS 3400 CU. FT. PER MINUTE

NOW OUR MODEL 16SVL "gets around" on pneumatic tires. Husky tubular steel flat-bed trailer has 1 7/8" ball hitch. HEAVY, RUGGED 16 Horsepower vacuum loader is equipped with 8" hose that reaches out 20 feet. (Photo shows boom available to swing hose.) Fills dump truck with compressed leaves in 25 minutes.

STADIUM MODEL 3-BS LO-BLO passes along the rows, blowing litter forward and down for pickup.

Funding the future

Professor H. B. Musser has made an investment in the future. He is the developer of Penncross Bentgrass, Pennlawn Fescue, author of the book *Turfgrass Management*, and a noted educator.

Professor H. B. Musser devoted his career to grass seed research. As a tribute to this outstanding Pennsylvania State University Turf Seed Agronomist, the Musser Foundation was formed.

The foundation's purpose is to assist graduate students in turf research through a fellowship program. This means students who have finished their undergraduate work and are going into turf research may receive financial assistance at this critical point in their careers. Only the interest earned from the H. B. Musser Fund will be used for fellowships, so the dollars you contribute keep on working in perpetuity.

If you or your company are involved in the sale or use of turfgrass or turfgrass-associated products or services, there's no better way to help yourself and the future of the turf industry than an annual contribution to the Musser Foundation.

Contributions may be made in the name of a loved one through the Memorial Fund, or to the Turfgrass Research Fellowship Fund.

"A fellowship involves an exceptional graduate student doing needed research, writing a thesis, adding to turfgrass literature and providing leadership for the future."

THE MUSSER INTERNATIONAL TURFGRASS FOUNDATION
of the H. B. Musser Turfgrass Fellowship, Inc.

Please send contributions in care of:

Dr. Fred V. Grau

P.O. Box AA

College Park, MD 20740

A nonprofit organization dedicated to fostering Turfgrass as a learned profession; to enhancing the lives of people all over the world through Turfgrass, and to supporting education and research in Turfgrass development and management.

Toro waters 52 of America's top

in golf course irrigation.

That can mean a lot; whether you're replacing a few heads or specifying a fully-automated pushbutton system. You'll be dealing with the company that

TORO's been around the greens for 60 years. And we've grown to become the leading name

irrigates the majority of U.S. courses. And that includes over half of *Golf Digest's* top-100 list.

Put in TORO automatic sprinklers and at the crack of the day's first drive you know your course is ready. Greens have been watered in their own special way. Fairways, tees and rough got customized sprinkling. Frost or dew has been syringed off the greens. Yet nobody has been near the course all night long.

But the newest thing about TORO

100 golf courses. Let that soak in.

automatic sprinkler systems is that the cost is less than ever. For example, our new hydraulically-controlled MPC system brings automatic within reach of just about everybody. Because we don't have to dig up your turf, you don't have to dig down into your pocket to afford the conversion.

And the solid-state VT 3 system we've just introduced bucks the rising tide of inflation with more control for less money. It's pushbutton irrigation nobody

else can touch.

You don't have to be in Pebble Beach or Augusta to have a great golf course. Just call our Golf Course Marketing Manager John Skidgel today. His 24-hour number is 714-359-0701. It could be the biggest step you ever took toward *Golf Digest's* top 100 list. Did that soak in?

The TORO Company, Irrigation Division, P.O. Box 489, Riverside, CA 92502. International Telex: 676-490.

MOW IT, MOVE IT, FASTER, BETTER!

NEW

BROUWER P.T.O. NOW HAS HYDRAULIC LIFT.

Just pull a lever and you can raise the mowers for transport.

This time and effort saving new feature is available on three and five gang systems. Hydraulic Lift feature is easily adaptable to any tractor with external hydraulics.

Hydraulic Lift makes the best one better! Brouwer P.T.O. Mowers have earned a top reputation for economy, reliability and the ability to handle the toughest grass. The P.T.O. drive with proven V Belt drive system makes it possible to cut wet or

dry grass and deliver the finest possible quality finish.

The addition of the Hydraulic Lift feature makes the Brouwer P.T.O. Mower even more desirable. Easier and faster to work with and to transport.

For full details write or phone for our fully illustrated detailed brochure. At Brouwer when we've got something good going for you — we make it better.

CONCENTRATE ON RAISING TURF.

NOT CASH.

You need a lot of equipment for effective turf management. And we lease it all. Mowers, spreaders, sprayers, tractors and aerators, just to name a few.

Quite simply, we specialize in leasing this equipment so you can keep your credit

open for other operating expenses and conserve your capital.

Leasing. It's the smart way to grow, and a real hedge against inflation. Find out more by calling us at 800-547-4905. The call's on us.
