

# PENN A-4: MAKES LIFE EASY

*"When we recently rebuilt some of our greens, I wanted a bentgrass that was more upright and fine. I did some research and liked what I learned about A-4. You don't have to mow it low to maintain speed so it handles stress, it's resistant to disease, and the members here love the way the ball rolls. I'm so impressed, in fact, that I'm interseeding the rest of my greens using A-4."*

**Superintendent Derrick Chlopecki, Pine Ridge GC, Winnipeg, Manitoba**

LESS FERTILIZER, LESS FUNGICIDE,  
LESS WATER... MORE FORGIVING.

DO THE MATH.
