*Product available March 2005.

Only 102 potential leak points.

Introducing the run-all-day, 2500E Hybrid Tri-Plex Greens Mower[®]. As the industry's first hybrid greens mower, our new 2500E Tri-Plex is more than just an electric mower. It operates on a traditional engine that drives an alternator which powers electric reel motors to drive the cutting units. This industry exclusive design eliminates more than 90% of the most likely leak points while also reducing sound levels and increasing fuel efficiency. And because the 2500E is not dependent on battery power for run time, it can keep the same frequency of clip on every green. To see the difference a 2500E can make on your course's greens, call your local John Deere One Source distributor or call 1-800-537-8233. www.JohnDeere.com

GOOD THINGS HAPPEN...

AFTER MIDNIGHT

Introducing two advanced premium Kentucky blues from Turf-Seed, Inc.

Midnight II. Rich, dark green-blue and compact-growing. The next generation of Midnight with improved year-round color, increased resistance to rust and mildew, improved summer performance and hard-wearing traffic tolerance.

Midnight Star. Deep, dark green. A Midnight hybrid with more seed yield for improved economy, and stubborn resistance to stripe rust.

Combine either with our elite Kentucky blues – **Moonlight**, **Brilliant** and **North Star**, or with other quality Turf-Seed, Inc. varieties to create strong, diverse blends and mixes. From the diligent research and superior breeding of Pure Seed Testing come the latest Kentucky blues, two new turfgrass solutions available from Turf-Seed, Inc.

The Intelligent Use of Water™

Water. It's what keeps the world alive. As the world's largest manufacturer of irrigation products, we believe it is our responsibility to develop technologies that use water efficiently. Over the past seven decades, our pioneering efforts have resulted in more than 130 patents. From central control systems and automatic shut off devices to pressure regulating components and low volume drip irrigation, Rain Bird designs products that use water wisely. And our commitment extends beyond products to education, training and services for our industry and our communities.

The need to conserve water has never been greater. We want to do even more, and with your help, we can. Visit www.rainbird.com for more information about The Intelligent Use of Water.™

You've heard the horror stories about the pompous green chairmen who think they know it all when it comes to golf course maintenance. Never mind that these Judge Smails types don't know *Poa annua* from a push mower. These guys *think* they know it all, and that's all that matters to them.

And then there's David Shaw, the mild-mannered green chairman of the Country Club of Orlando. Shaw will be the first to tell you that he doesn't know it all — or even close to it all — about turf maintenance. But like an eager-to-learn college kid, Shaw will also tell you that he's trying to learn more about turf management by reading trade magazines like *Golfdom* because he knows being informed can only aid him in his role as green chairman.

Shaw is genuine when he says he wants to understand the plight of superintendents and turf workers in their ongoing battle against the mighty Mother Nature to maintain healthy turf.

Is this guy a dream green chairman or what? And it gets better.

Shaw sincerely appreciates when superintendents and their crews shed their blood, sweat and tears. We know this because we've heard stories about how Shaw *shows* his appreciation.

Brian Poorman, the assistant superintendent at the Country Club of Orlando, relates a story about how Shaw showed his gratitude for the maintenance staff's hard work a few years ago after the crew helped stage a successful member-guest tournament. After the event, Shaw sent a limousine to pick up Poorman, the course's superintendent and two other core staff members and took them out for a steak dinner.

"David is a down-to-earth guy," Poorman says. "He tells me, 'I'm here to help you be successful.'"

That's Shaw's mantra. He believes that in order for one to be successful, he or she must help others be successful.

Wait, the dream gets even better.

You've heard the stories about green chair-

Green Chairman Is the Real Deal

BY LARRY AYLWARD

DAVID SHAW

BELIEVES THAT IN
ORDER FOR ONE
TO BE SUCCESSFUL,
HE OR SHE MUST
HELP OTHERS
BE SUCCESSFUL

men who impose a my-way-or-the-highway doctrine when it comes to running the golf course. Well, get this: Shaw is a listener. He'll look you in the eyes and hear what you have to say. And he'll take what you have to say into consideration when making a decision he hopes is good for all.

Some superintendents might feel threatened to know their green chairmen are reading turf pubs to keep up on industry trends and technicalities. But not Steve Money, who joined the Country Club of Orlando as its superintendent last spring. He likes that Shaw feels a need to be educated so he understands where Money is coming from when talking turf.

"He's a very detailed person, and he always wants to know the details of what you're doing," Money says. "He keeps things moving forward."

There's a fine line between being hands-on and hands-off. Shaw has negotiated that territory carefully — he's involved, but he's not overbearing.

"I would describe David Shaw as a model green chairman," says Jim Ellison, vice president of agronomy and golf course maintenance for Arnold Palmer Golf, who has consulted at the Country Club of Orlando for the past few years. "He asks questions and takes input."

Shaw, a mechanical engineer who owns his own commercial services and contracting company, sounds like a football coach when he says: "You just have to get the right people on the bus. If you do that, it's easy to stay out of their way."

True, but you also have to know when to stay out of those people's way. Some authorities just don't get that. "Meddling" is their middle name.

Continued from page 8

The gravelly voiced Shaw, in his fourth year as green chairman, says the responsibility he holds for his post has more to do with his passion for the club than his desire to wield power.

"This is our second home," the 47-year-old Shaw says of himself and his wife and two children. "We love it here."

Jerry Valone, the club's general manager, jokes that people are already chanting "four more years" in reference to Shaw taking on another term as green chairman.

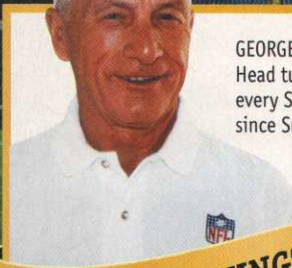

If it were an election, you can bet Shaw would garner the majority vote of the golf course maintenance staff.

Editor in Chief Aylward can be reached at 440-891-2770 or laylward@advanstar.com.

LARRY AYLWARD

David Shaw, the mild-mannered green chairman of the Country Club of Orlando, conducts a green committee meeting last November. Shaw is the type of leader who likes to ask others, "What do you think?"

GEORGE TOMA
Head turf consultant for every Super Bowl field since Super Bowl #1

CHOOSE PENNINGTON SEED

"In my opinion, if you want the best seed money can buy, get Pennington."

George P. Toma

Guess Who Rolled Out The Turf For Super Bowl XXXIX?

PENNINGTON GRASS SEED was chosen as *the* base sod (Princess 77 bermuda-grass) and as *the* overseeding mixture (Pennington Tournament Quality Professional Select Rye/Blue Mixture) to cover the entire field in Jacksonville. And we were in Houston last year for the 38th Super Bowl. The fact is, Pennington is on a roll with grass seed products so good they are used in many of the most important sporting venues in the world.

So whether it is the biggest arena in pro football or your front lawn, you can trust Pennington to go the extra yard for all your turfgrass needs.

For info, e-mail: sportturf@penningtonseed.com, call 1-800-285-SEED or visit: www.penningtonseed.com
