

LOOKS LIKE A CLEAR DAY.

INSIST ON AUTHENTIC CLEARY TURF PRODUCTS:

**3336 WP | 3336 Plus | 3336 F | 26/36 | Spectro 90 | Alude | Protect DF | TriStar 70WSP
| TriStar 30SG | Endorse | Sentry | Limestone F | Grass Greenzit**

Cleary.

Because great looking turf shouldn't be left to chance.

There's no room for guesswork when it comes to effective turf disease management. That's why superintendents everywhere have come to depend on Cleary's solutions to keep their fairways and greens healthy and beautiful. For over 70 years, we've played a big part in increasing turf quality and improving playing conditions on today's best looking golf courses. Backed by our tradition of excellence in product research, innovative formulation and unsurpassed customer service, Cleary turf products have become the disease control solutions you can count on for outstanding performance, day in and day out.

NEW 3336 PLUS™ with ClearTec™ Activation Technology provides up to 50% more disease control.

Fast becoming the standard by which all fungicides are judged, new 3336 Plus™ power-packed with ClearTec™ Activation Technology, provides **broad-spectrum disease control up to 50% longer** on tough fairway diseases. Re-engineered from 3336 (the fungicide superintendents have trusted for over 30 years), new 3336 Plus is a unique formulation breakthrough. 3336 Plus makes more effective use of the **active ingredient thiophanate-methyl**, resulting in longer lasting disease control when compared with the products containing the same active ingredient.

Why leave your turf to chance? Discover all the advantages of 3336 Plus and our Solutions Program by contacting your local distributor or visiting www.clearychemical.com. We'll make you, and your course, look better than ever.

Not Everyone Should Use Basagran T/O.
Only Those Who Love

**better
TURF™**

Obsessive about your turf? Try **Basagran® T/O herbicide**. For a fraction of the cost of a typical herbicide treatment for nutsedge, **Basagran T/O** provides effective, long-term yellow and annual nutsedge control on both cool- and warm-season turfgrass. Plus, **Basagran T/O** can be easily tank-mixed with other herbicides to affordably increase their spectrum of control. So go ahead, show your love. With **Basagran T/O**.

About the cover

We think this photograph from iStock International Inc. helps get across the theme for our greens maintenance guide.

This month, *Golfdom* offers its annual putting surface guide. Our report hits on myriad topics, from the benefits of Champion bermudagrass to the maintenance associated with the newer bentgrass varieties.

NEW DISARM™ BECAUSE SPEED IS OF THE ESSENCE.

When you're faced with the threat of brown patch, gray leaf spot, anthracnose and other turf diseases in your fairways and greens, you need the proven performance of new DISARM™ Fungicide. Unlike most strobilurin fungicides, DISARM features fast penetration of leaf surfaces, rapid translaminar movement and enhanced systemic activity for longer-lasting residual control and complete leaf and crown protection. Plus, it's rainfast in as little as 15 minutes. Add it all up and DISARM gives you performance that's equal to or better than the leading strobilurin. To learn more, visit www.arystalifescience.us/disarm or call 1-866-761-9397.

A new solution for *Turfus compactii*.

Thicker and stronger turf. That's what you get with T-NEX 1AQ from Quali-Pro. Containing the same active ingredient as Primo® Maxx™, T-NEX will make your grass greener and reduce the number of mowings, which saves labor, fuel, and time. Additionally, T-NEX is the perfect pre-stress conditioning choice for the coming season. When you want your course at its best, use T-NEX from Quali-Pro — another excellent addition to the industry's most comprehensive product portfolio.

For more information about Quali-Pro products, call 800-979-8994 or visit www.quali-pro.com.

The breakfast buffet held by the Responsible Industry for a Sound Environment (RISE) at the Golf Industry Show in February included bacon, eggs and a call to action. The bacon was crisp, the eggs were delicious and RISE's call to action was clear: Pesticide makers and users need to get on the offensive in the battle against reform environmentalists who could put the industry out of business.

Of course, these reformers would contend that they only want golf courses to stop using pesticides. Imagine if all golf courses stopped using pesticides. That would be like McDonald's taking hamburgers off its menu. Both actions would ruin both businesses.

Nothing against the few courses that use little or no pesticides, but an industry-wide pesticide ban would put the golf industry out of operation faster than you can say propiconazole. Do you think the average Joe Country Club — the guy who reveres lush green fairways and impeccable greens and spends thousands to expect them — would tolerate weeds on the tees, brown fairways and diseased greens?

Back to the RISE breakfast. If you don't know, RISE is the lobbying organization that defends your use of pesticides on golf courses, not to mention pesticide use in homes and schools. A no-nonsense gentleman named Allen James is president of the group, and its members include the companies that manufacture and market the products that superintendents use.

RISE has a full agenda these days, considering that Democrats are now in control of the House of Representatives and the Senate. "If there's a dream team in basketball, there's a dream team in Congress as far as environmental activities go," James said, citing Sen. Harry Reid (D-Nevada), Sen. Barbara Boxer (D-Calif.), Sen. Ted Kennedy (D-Mass.) and Rep. Harry Waxman (D-Calif.) as thorns in the pesticide industry's side.

Considering their views on pesticides, some of those Democrats must have lousy-looking lawns and mice running around in their basements. But enough about them.

This issue is about the people who sell and use pesticides. It's time to stand up and be heard. It's

RISE and Shine and Take Action

BY LARRY AYLWARD

IMAGINE IF ALL
GOLF COURSES
STOPPED USING
PESTICIDES. THAT
WOULD BE LIKE
MCDONALD'S TAKING
HAMBURGERS OFF
ITS MENU

all right for you to grumble among yourselves about the pesticide detractors, but it's also time to take your message to the streets.

And you don't have to go to Capitol Hill to voice your opinions, as Allen points out. You can do it at the city council or township meetings in your hometowns. You can educate others — from local government leaders to think-they-know-it-all homeowners — that pesticides can be used safely and beneficially. Why will they believe you? Because you are the educated experts when it comes to pesticide use. You use facts, not rhetoric.

Stacey Pine, RISE's manager of Grassroots Issues, is in charge of combating the activists at the local level. Pine says it's easier for activists to advance their anti-pesticide message at that level because they face less bureaucracy. But with 85,000 local municipalities in the country, Pine needs your help to monitor and combat anti-pesticide activity in those areas. Give her a call to see how you can help.

But this isn't just about helping Pine and RISE. It's about helping yourself and the golf industry. It's about proving that you manufacture and use pesticides sensibly.

There's one thing that irks me about this issue more than a telemarketer's call during an episode of "24." It has to do with our second-guessing politicians. On one hand you have a government entity — the Environmental Protection Agency — endorsing pesticides for use after a seemingly painstaking approval process to make sure they are safe. On the other hand you have members of Congress contradicting the EPA's decisions by bashing pesticides.

This is where you come in. This is where your knowledge on the topic can hush the fast-talking politicians.

Aylward can be reached at 216-706-3737.

IT HAS BEEN OVER 10 YEARS SINCE CHAMPION
USHERED IN THE NEW "ULTRADWARF" BERMUDAGRASSES.

IN 2006, MORE COURSES PLANTED CHAMPION
THAN ANY OTHER BERMUDAGRASS CULTIVAR.

WHY HAS CHAMPION BECOME THE MOST
WIDELY-UTILIZED ULTRADWARF BERMUDAGRASS?

Of all the courses that planted CHAMPION in 2006, over
two-thirds reported that they went out and played on greens
of each of the ultradwarf cultivars before making their choice.

In each case they stated that they chose CHAMPION because
CHAMPION greens produced "THE BEST PUTTING SURFACE".

Today there are well over 1,000 acres of CHAMPION greens
in the United States.

If you are considering an ultradwarf Bermudagrass for your
greens, we encourage you to compare the putting surface of
CHAMPION to the other Bermudagrass cultivars.

A COMPLETE LIST OF COURSES WITH CHAMPION GREENS CAN BE FOUND AT
WWW.CHAMPIONTURFFARMS.COM

Florida Forecast: A Few Hotbeds

Bucking national trends, Lee and Collier counties in Florida continue to see growth in new golf courses. Slated to open in fall 2008 are Cypress Shadows in Naples, a Lennar housing development with a Gordon Lewis-designed semiprivate layout; and the 1,229-acre Palermo project in North Fort Myers, a Beazer Homes development that will feature a public Lewis-designed 18-holer. Debuting this fall is The Plantation, which will boast a Michael Hurdzan-designed private 18 holes. Also, River Hall at Hawk's Haven in Fort Myers, a Landmar Group project, will unveil a Davis Love III-designed private course in November. For details on these and other golf projects around the country, visit www.golfconstructionnews.com.

COURTESY OF:

Silence the Snivelers

So you have a guy on your crew who's a chronic complainer about everything. This guy whines more than your 5-year-old when you take away his Game Boy. However, you must deal with him for the sake of your own sanity, not to mention to benefit the entire crew. Here's how:

Try to move to a problem-solving mode by asking him to suggest alternatives with questions like,

"What results are you trying to achieve?"

Or

"How would you like to see this resolved?"

Complainers tend to stop complaining when put in a position of responsibility for solving the problem.

Golf Rounds Played

The percentages below represent the difference in number of rounds played in January 2007 compared to the number of rounds played in January 2006.

GOLF DATATECH

Night, Night

Superintendents arrive at work before most people crawl out of bed. Knowing that, we here at *Golfdom* want you to rise and shine. And to "shine" is to get a good night of sleep. Here's how:

- * Don't do an espresso or a caffeine-laced drink within six hours to eight hours of bedtime.
- * Avoid nicotine close to bedtime.
- * Don't drink alcohol within two hours to four hours of bedtime. A beer or two may help you fall asleep, but will cause poorer quality of sleep and more nighttime waking.
 - * Avoid eating big, greasy and spicy meals before bedtime. Translation: No late runs to Taco Bell! However, a light snack composed mostly of carbohydrates can help promote sound sleep.
- * Don't nap late in the afternoon or evening. If you choose to nap, do it early in the afternoon and limit it to 30 minutes or so. (We know you don't have time to nap. But if you do, keep this point in mind. Also, find a place where you can't be found!)
