

Contec DG[®]

THE NEXT GENERATION
OF TURF NUTRITION
TRANSFORM THE WAY YOU FEED YOUR COURSE!

Contec DG 100% DISPERSION (28 particles per sq. in.)

APPLIED

10 MINUTES
AFTER WATERING

ContecDG[®] is a dispersing granule technology that "melts" into the turf within minutes of irrigation. About 10 minutes after contact with water, the granules have fully dissolved into thousands of particles, ensuring 100% of the DG nutrients are delivered into the turf.

That means...

- No nutrient loss from mower pick up
- No shoe or ball pick up
- No particle run-off from heavy rain
- Virtual elimination of player downtime

**"After we fertilize and water, I run my hands
over the green and there's no particles."**

- Larry Johnson, Superintendent,
North Ridge Country Club, Fair Oaks, CA

**"Since we've been using DG, we haven't
had to mow without baskets."**

- Steve Moulton, Superintendent,
Soldier Hollow Golf Course, Midway, UT

**"Before Contec DG it was difficult to find
fertilizer that gets into the turf immediately."**

- Jim Ferrin, Superintendent,
Timber Creek Golf Course, Roseville, CA
