

J.J. Mauget Co.

J.J. Mauget Co., the pioneer and leader in micro-infusion tree care, offers more than 15 insecticide, fungicide, micro-nutrient and antibiotic tree-care products, each delivered in a completely enclosed micro-infusion application that works with a tree's natural processes for optimal health. For more information on Mauget products, call 1-800-TREES RX (873-3779), or visit www.mauget.com.

Superintendents' Video Workshop

The 27 titles in the **SVW** series cover everything from basic maintenance procedures to advanced topics like Spreader Calibration, Irrigation Winterization and Tips for an OSHA-Friendly Maintenance Facility. Each offers advice on how to achieve the highest quality standards with the focus consistently on safety and attention to detail. Although popular methods of maintenance techniques are detailed, it is stressed that the crew should defer to the method preferred by their supervisor.

The SVW training series also includes a handbook outlining each portion of the video training, as well as a test the superintendent can administer to the crew. Titles are available on DVD, many in Spanish.
