

Questions about Turf Establishment?

Gray Leaf Spot a problem?

Choose Trifecta " perennial ryegrass blend - featuring Exacta ", Charismatic " and Secretariat ", three of the top rated perennial ryegrasses for resistance to the devastating disease caused by Pyricularia Grisea.

High salt content soil or water a challenge?

Give your perennial ryegrass seed a chance to survive this tough challenge with university tested Affirmed, Exacta, Churchill or Charismatic varieties, available in ProScape Salt Tolerant Certified crop and weed free blend.

Looking for better seed establishment?

Get the best possible establishment and a finished professional look for your seeding projects with PennMulch Seed Accelerator. Each pellet contains patented Moisture Cell Technology for better water management and a starter fertilizer to save you valuable application time. Use PennMulch with top rated ProScape seed mixes and for native grass and wildflower establishment.
