

# HIGH VISIBILITY GREENS GRADE CONTEC DG?

WHAT A BRIGHT IDEA!

NEW  
FOR  
2010

A select number of Contec DG greens grade fertilizers are now available as "High Visibility," distinguishable by their brighter, light reflecting appearance when applied.

0-0-12	Contec DG
0-0-25	Contec DG
6-0-12	Contec DG
7-14-14	Contec DG
9-0-18	Contec DG
13-0-26	Contec DG
14-7-14	Contec DG

Our objective in improving these products was to make them even more easy, effective and efficient to apply. Our high visibility products help you spread the product with no gaps or overlapping so you get just the right performance out of your product investment. As with all Contec DG products, there is no waste since, with light watering, the product quickly begins to dissolve through the turf canopy and gets to work in the soil.
