

How to be a pioneer as well as entirely practical.

**7500**  
**E-CUT Hybrid**

Reel speed stays consistent to maintain ideal frequency of clip.

Electric reel motors require no routine service.

**Get ahead of the curve with hybrid fairway technology.  
Only from John Deere Golf.**

With the 7500 E-Cut Hybrid, you get a fairway mower that combines cutting edge technology and common sense. Hydraulic leaks in the reel circuit are a thing of the past. You can maintain it just like a regular mower. And you'll appreciate the lower decibels as well as saving on fuel.

There's never been a better time to put hybrid fairway technology to work for you. Demo a 7500E on your course or visit us at [JohnDeere.com/Golf](http://JohnDeere.com/Golf).
