

The Solheim Cup Took a Unique Course

- Visually superior turf coloration
- Increased root mass and density
- Smoother playing surface
- Denser plants showing strength and vigor

Faster, Stronger, Smoother, Denser, Healthier.

GenNextBiotech.com

It starts with the next generation of plant science.

GenNext Biotech products combine natural enzymatically organic ingredients to provide your turf the plant health it requires.

Repeated applications reduce:

- irrigation needs
- chemical inputs
- poa annua populations

Thanks to Tony Hartsock at Colorado Golf Club and Golf Enviro Systems Inc for showing the world what fast, firm and healthy looks like with GenNext during the Solheim Cup telecasts.
