

GCSAA NEWS

Two changes in the CGCS program were recently approved by the executive committee:

1. One-day seminars will now be counted as credit toward certification renewal. One point will be awarded for each one-day seminar taken and passed. In the past, only two-day seminars taken and

passed were credited toward certification renewal.

2. An applicant for certification now will be allowed to re-take only twice in one year parts of the certification

exam which he failed on the initial exam. If the applicant is unsuccessful on both re-testing attempts, he must wait one year from the time his application was verified to re-apply to the program. Previously, an applicant could be re-tested as many times as he wished during the years.
