The environment committee is not new. Our friends in Madison have been very active and the past few years. A special thanks to Monroe Miller, Randy Smith and Tom Harrison for taking active part on all or behalves. Your Board has decided to be the Environmental Committee. We the Board of Directors are taking responsibility for making sure the government bodies in Madison have all the information before decisions are made. This is no small task. We need the support of every person. There will be more about this in the months to come.

We are instrumenting a support calendar. This is so we know when things are to be done, so things get done. If you have anything to add, send it to me.

Your Directors have also taken responsibility for our Newspaper, *The Grass Roots*. All of us have committed to have an article to Dan by the end of January. That is what it takes to have the quality of our paper the way we want it.

The quality of our *Grass Roots* does not lie with the Editors, it lies with each member of our organization. Writing the article is not difficult. Making the commitment and keeping our word is the part that doesn't get done. I invite you all to write about your many accomplishments.

You all have something to contribute, what we have now is our reasons not to.

In closing, I would like to wish all of you the happiest of New Years.

Respectfully,
 Bob Boltz, President
 WGCSA
