# RECORD NUMBERS VISIT KETTLE-MORAINÉ GOLF CLUB FOR WGCSA'S JUNE MEETING

Longtime WGCSA members were searching their memories to try to recall the last time over 90 people attended a regular monthly meeting. Almost 75 individuals played golf, a great compliment to Dewey Laak and his staff. They rolled out the "red carpet" for the meeting and it was appreciated by all in attendance.

The event was new to WGCSA meetings and was divided into two flights — 16 and under and 17 and over. The goal was to play around the golf course and avoid all hazards (OB, water, sand, bunkers, etc.). The 16 and under winners made it all the way around the golf course without hitting a ball in any hazard. Three members tied for first place, and the tie was broken by the low net. Erv Graf placed first, host Dewey Laak was second, and Mike Lees took third place. The 17 and over winner was Dennis Robinson who also made it all the way around the course without hitting any hazards. Second place was taken by Dave Beale, who made it 17 holes. Gil Bergdahl placed third and made it 13 holes before finding a hazard with his golf ball.

The flag event winners were as follows:

Long drive, 16 and under: Paul McKenzie

Long drive, 17 and over: Charlie Shaw

Long putt: Bill Sell

Closest to the Pin: P. Shaw

A highlight of the evening was the excellent talk given by Russ Weisensel, Executive Director of the Wisconsin Agribusiness Council. Russ updated the group on the pesticide situation in Wisconsin. If he had a message, it was that those affected by legislation proposed at the local or state level must participate in hearings on that legislation. He also made it abundantly clear that there is never any relief from the assault by environmentalists and others to

regulate (and eliminate) pesticides and their use. Russ is a very interesting, colorful and polished speaker. His background includes experience as a farmer and as a two term legislator in the Wisconsin Assembly. These, coupled with his many years as the Director of the Agribusiness Council, qualify him as the eminent spokesman for the varied business of agriculture in Wisconsin. His appearance was a rare treat and everyone was grateful for the opportunity to listen to him. The WGCSA is a member of the Wisconsin Agribusiness Council.

Horst Distributing very kindly provided the prize for the June raffle drawing — a Jacobsen string trimmer. It was won by Beloit's Don Ferger, who commented, "My wife will enjoy using this!" This month's raffle raised just over \$300.

Russ Weisensel, Executive Director of the Wisconsin Agribusiness Council.

Ron Schumacher presents Don Ferger the prize from June's raffle.
