

## Monroe Miller receives honor

By Tom Harrison

On Friday, April 7, 1989 the University of Wisconsin College of Agricultural and Life Sciences bestowed its Honorary Recognition award upon Monroe Miller. The award is significant in many ways, both to Monroe and the turfgrass industry in Wisconsin. The award hon-

ors outstanding contributions to agriculture and rural life and since 1909 has primarily been awarded to individuals connected directly with farming in Wisconsin.

Monroe Miller's honorary recognition by the College, besides being a high

point in Monroe's career, represents the first recognition of a turf professional in urban agriculture by the University of Wisconsin. Everyone connected with turf in Wisconsin should be proud of the fact that one of our own was the recipient of this prestigious award. Urban agriculture has made a major step forward with this presentation.

For Monroe and his family the award represents a tremendous honor bestowed upon someone who has worked hard for the turfgrass industry in Wisconsin and who truly is committed to his alma mater. Monroe's dedication to the WGCSA and the O.J. NOER CENTER for TURFGRASS RESEARCH have been apparent to everyone in turfgrass management in Wisconsin for many years. It is truly an honor, however, to have the University of Wisconsin College of Agricultural and Life Sciences recognize his leadership and dedication to his profession. All of Monroe's friends in the green industry congratulate him on this fine award.

Aeration Defined

is Otterbine

# Reinders

## Introducing The Instant Fountain™

Otterbine's new line of Instant Fountains now offers a complete aerator-fountain and pool to meet the needs of small to mid-sized landscaping applications. Instant Fountains will add distinction to any location . . . residential, commercial or industrial.

Designed for beauty, ease of installation, low maintenance and operation costs, Mini-Aerators are built with the same commitment to quality as the larger industrial models and are backed by Otterbine's limited warranty program.

The Water System package, opens a whole new dimension to limited landscape planning by allowing self-contained fountain systems in areas previously ignored. Mini-aerators are available as separate components or as part of a complete system package. In addition to their esthetic appeal, some models also provide oxygenated water, keeping pools clean and clear.
