Tripoli and Brynwood Country Clubs Are Newest Supporters of the NOER CENTER

Two of Milwaukee's finest golf clubs are the latest additions to the O.J. NOER CENTER for TURFGRASS RESEARCH HONOR ROLL.

Tripoli, managed by WGCSA past president Jim Belfield, has become a member at the Eagle level. Jim has always been a strong supporter of turfgrass research. He has an able ally on his green committee — Ransomes president Helmut Adam.

Brynwood Country Club has also contributed to the NOER CENTER and become an HONOR ROLL member at the FRIEND level. Thanks go out to the membership and to golf course superintendent Steve Blendell.

MURANYI, SCHWAB DONATE

Monroe Country Club's dynamic duo, golf professional Mike Muranyi and golf course superintendent Tom Schwab, have given their personal support to the O.J. NOER CENTER for TURFGRASS RESEARCH. Mike is the first golf professional to donate to the NOER CENTER. Thanks go to both of these men.

Different Times, Different Needs, Same Goal

The following lines were written by J.C. Ford, a Dane County farmer. They appeared in *Wisconsin State Agricultural Society Transactions*, 1881-1882. This was several years before state Experimental Stations were established.

The appeal in that time is not unlike the appeal we are making these days for the NOER CENTER.

Hitch Science to Our Plows!

The University needs a place for experiments. They should have a model farm and eight to ten good professors. The beggarly tax we'd pay would be repaid a hundred times. If someone had found a way to head off the chinch bug it would have saved Wisconsin about 100 million dollars. We don't want science floating in the skies. We want to bring it down and hitch it to our plows!
