

# 1991 Commercial Applicator Training Sessions Announced

The 1991 schedule of commercial applicator training sessions has been released by the University of Wisconsin-Extension and the Cooperative Extension Service.

The Ornamental and Turf (Category 3) schedule is as follows:

Location	Date	Pre-Registration Deadline
Milwaukee	April 1	March 18
Green Bay	April 3	March 20
Arlington	April 5	March 22
Eau Claire	April 10	March 27
Milwaukee	April 12	March 29

Sessions begin at 8:30 a.m. and conclude at about 2:30 p.m. The examination is given afterwards and 90 minutes are allowed for it. If you have specific questions, please call either Roger Flashinski (WEX Pest Management Education Specialist) or Rose Scott (Program Assistant). The phone numbers are 263-6358 or 262-7588. The area code for both is 608.

To register for a training session *and* to receive your training materials, please complete a "Commercial Pesticide Applicator Training" registration card. These cards are avail-

able from your county Extension office or from the Pesticide Applicator Training office in Madison. Indicate the location and date of the training session you desire to attend *and* the pest-control category in which training materials are being requested. Return the registration card and training fee to:

Pesticide Applicator Training  
 Department of Agronomy  
 1575 Linden Drive  
 Madison, WI 53706-1597

If you already paid the training fee you may register to attend a training session by again completing a registration card and returning it to this office. Or, if you prefer, call the office to inform them which training session you wish to attend.

Please register *before* the deadline date listed for each training session. Advance registration allows ample time for you to receive and review your training materials prior to the scheduled session, and it may avert cancelling a training session due to inadequate enrollment. You will be notified as to the status of your session approximately 7-10 days prior to the scheduled date. Directions to the meeting facility will be given at that time.

## Top-rated team for tough turf

For a grass seed mixture that thrives under difficult conditions, choose ProTurf® Sports Turf with quick-germinating Loretta® and Accolade® perennial ryegrasses plus Abbey® and Victa® Kentucky bluegrasses. Apply Scotts® High Density Starter™ Fertilizer at planting time and optimize your turf results.

Ask your ProTurf Tech Rep for details.
