Mr. Monroe Miller  
Wisconsin GCSA  
Blackhawk Country Club  
3606 Blackhawk Drive  
Madison, Wisconsin 53705

Dear Monroe:

On behalf of the Turfgrass Information Center, I would like to thank you and the Wisconsin Golf Course Superintendent's Association for the generous donation and needed support.

The Turfgrass Information Center plays a valuable role in the Turfgrass Community worldwide by supplying published information about our environment, turfgrass research as well as making answers available for everyday turf problems.

I hope the Turfgrass Information Center is a service that will be used by everyone in the Wisconsin Turfgrass Industry. There is a staff lead by Project Manager, Peter Cookingham. Peter is ready to help you make the Turfgrass Information File (TGIF) a effective and efficient turfgrass tool.

Again, to each and everyone in Wisconsin, thank you. The Turfgrass Information Center can only exist and improve with support of concern individuals like yourselves. I am looking forward to seeing everyone at the Wisconsin Turfgrass Association Winter Conference on January 12th, and 13th, 1993.

Respectfully,

Danny H. Quast, CGCS

DHQ/nd
