

Lebanon Donates

By David Brandenburg, Golf Course Superintendent, Rolling Meadows Golf Course

WGCSA has received a donation for \$350 from Lebanon Turf Products. The check was presented by Frank Baden of Lebanon and based on purchases made by local superintendents.

Lebanon included a coupon in many national publications and in the Grass Roots May/June issue. With this coupon Lebanon would donate \$25 to local superintendent associations with the purchase of three tons of product. Sounds easy but unfortunately not one Wisconsin course took advantage of the program by filling out the coupon.

So how did we get the \$350? Only through the efforts of John Mortimer, Chairman of the Board at Horst Distributing, was this donation possible. John took the time to go through sales records and fill out the coupons for courses that made purchases through Horst. Thanks to John for his work, and thanks to Lebanon for making this program available to our industry. ♣

What's the Difference?

THE NEW INDUSTRY STANDARD FOR FOLIAR FERTILIZERS AND MICRONUTRIENTS

Do you know the difference between liquid fertilizers and foliar fertilizers? Do you know when a true foliar is clearly the better choice over soluble or dry fertilizers? Today's problems require Nutri-Rational solutions... based on the most advanced chemistry and a better understanding of turf physiology and plant nutrition.

By every standard of measurement, Nutri-Rational™ Foliars are better:

- ♣ Higher quality components
- ♣ Superior delivery system
- ♣ Better tissue penetration
- ♣ Excellent foliar absorption
