

Badger State Turf Clippings

By Tom Wentz and the Reinders Team

By the time you read this we will be celebrating the Christmas season, one that brings families together to open gifts, sing carols, and enjoy watching the children and grandchildren eyes get big as they see what Santa Claus brings. Of course we know who Santa Clause really is and it's fun to play the part and share in their excitement. Hope all of you take the time to lay back and enjoy this special time of year.

Who would ever have guessed that today saying "Merry Christmas!" would be treated with contempt by those folks that are more concerned about how others will be offended. This has been political correctness carried to an extreme. Manger scenes have been removed in public places; a Christmas tree is now a Holiday tree; Christmas parades are now Holiday parades; Christmas programs are now Holiday programs in schools, with certain Christian theme Christmas songs not allowed to be sung. This list goes on and on. I am pleased to report that the tide may be turning, as Milwaukee will be lighting a "Christmas tree" and not a "Holiday tree" this season. It's a step in the right direction that I hope other communities around the country bring back the Christmas traditions we have celebrated and has meant so much to us. **Merry Christmas!!!**
